EXTRACT FROM "THE LONDON GAZETTE" OF
FRIDAY, OCTOBER 3, 1873.

At the Court at Balmoral, the 30th day of September, 1873.

Present—The Queen's Most Excellent Majesty in Council.

WHEREAS by an Act of Parliament made and passed in the Session of Parliament holden in the thirty-third and thirty-fourth years of the reign of Her present Majesty, intituled, "*An Act for Amending the Law relating to the Extradition of Criminals*," it was, amongst other things, enacted, that where an arrangement has been made with any foreign State with respect to the surrender to such State of any fugitive criminals, Her Majesty may,

by Order in Council, direct that the said Act shall apply in the case of such foreign State; and that Her Majesty may, by the same or any subsequent Order, limit the operation of the Order, and restrict the same to fugitive criminals who are in or suspected of being in the part of Her Majesty's dominions specified in the Order, and render the operation thereof subject to such conditions, exceptions, and qualifications as may be deemed expedient:

And whereas a Treaty was concluded on the twenty-sixth day of June last between Her Majesty and the King of Sweden and Norway for the mutual extradition of fugitive criminals, which Treaty is in the terms following:—

Her Majesty the Queen of the United Kingdom of Great Britain and Ireland, and His Majesty the King of Sweden and Norway, having judged it expedient, with a view to the better administration of justice, and to the more complete prevention of crime within the respective countries, that persons charged with or convicted of the crimes hereinafter enumerated, and being fugitives from justice, should, under certain circumstances, be reciprocally delivered up; their said Majesties have named as their Plenipotentiaries to conclude a Treaty for this purpose; that is to say:—

Her Majesty the Queen of the United Kingdom of Great Britain and Ireland, the Honorable Edward Morris Erskine, a Companion of the Most Honorable Order of the Bath, Her Majesty's Envoy Extraordinary and Minister Plenipotentiary to His Majesty the King of Sweden and Norway;

And His Majesty the King of Sweden and Norway, Henrick Wilhelm Bredberg, Grand Cross of the Order of the Polar Star, His Majesty's Councillor of State and Acting Minister for Foreign Affairs;

Who, after having communicated to each other their respective full powers, found in good and due form, have agreed upon and concluded the following Articles:—

ARTICLE I.

The High Contracting Parties engage to deliver up to each other those persons who, being accused or convicted of a crime committed in the territory of the one party, shall be found within the territory of the other party, under the circumstances and conditions stated in the present Treaty.

ARTICLE II.

The crimes for which the extradition is to be granted are the following:—

1. Murder (child murder and poisoning included) or attempt to murder.
 2. Manslaughter.
 3. Counterfeiting or altering money, uttering or bringing into circulation knowingly counterfeit or altered money.
 4. Forgery, or counterfeiting or altering or uttering what is forged, or counterfeited, or altered, comprehending the crimes designated in the Swedish and Norwegian penal codes as counterfeiting or falsification of paper money, bank notes, or other securities, forgery or falsification of other public or private documents, likewise the uttering or bringing into circulation or wilfully using such counterfeited, forged, or falsified papers.
 5. Embezzlement or larceny.
 6. Obtaining money or goods by false pretences, except as regards Norway, cases in which the crime is not accompanied by aggravating circumstances according to the law of that country.
 7. Crimes by bankrupts against bankruptcy law.
 8. Fraud by a bailee, banker, agent, factor, trustee, or director, or member or public officer of any company, made criminal by any law for the time being in force.
 9. Rape.
 10. Abduction.
 11. Child stealing.
 12. Burglary or housebreaking.
 13. Arson.
 14. Robbery with violence.
 15. Threats by letter or otherwise with intent to extort, except as regards Norway, cases in which this crime is not punishable by the laws of that country.
 16. Sinking or destroying a vessel at sea, or attempting to do so.
 17. Assaults on board a ship on the high seas, with intent to destroy life or to do grievous bodily harm.
 18. Revolt, or conspiracy to revolt, by two or more persons on board a ship on the high seas against the authority of the master; except, as regards Norway, conspiracy to revolt.
- The extradition is also to take place for participation in any of the aforesaid crimes, provided such participation be punishable by the laws of both the contracting parties.

ARTICLE III.

No Swedish or Norwegian subject shall be delivered up to the Government of the United Kingdom; and no subject of the United Kingdom shall be delivered up to the Swedish or Norwegian Government.

ARTICLE IV.

The extradition shall not take place if the person claimed has already been tried and discharged or punished, or is still under trial in the country where he has taken refuge, for the crime for which his extradition is demanded.

If the person claimed should be under examination for any other crime in the country where he has taken refuge, his extradition shall be deferred until the conclusion of the trial, and the full execution of any punishment awarded to him.

ARTICLE V.

The extradition shall not take place if, subsequently to the commission of the crime, or the institution of the penal prosecution, or the conviction thereon, exemption from prosecution or punishment has been acquired by lapse of time, according to the laws of the country where the criminal has taken refuge.

ARTICLE VI.

A fugitive criminal shall not be surrendered if the offence in respect of which his surrender is demanded, is one of a political character, or if he prove that the requisition for his surrender has in fact been made with a view to try or punish him for an offence of a political character.

ARTICLE VII.

A person surrendered by either of the high contracting parties to the other, cannot, until he has been restored or had an opportunity of returning to the country from whence he was surrendered, be triable or tried for any crime committed in the other country other than that on account of which the extradition shall have taken place.

This stipulation does not apply to crimes committed after the extradition.

ARTICLE VIII.

The requisitions for extradition shall be made through the Diplomatic Agents of the High Contracting Parties respectively.

The requisition for the extradition of an accused person must be accompanied by a warrant of arrest issued by the competent authority of the State requiring the extradition, and by such evidence as, according to the laws of the place where the accused is found, would justify his arrest if the crime had been committed there.

If the requisition relates to a person already convicted, it must be accompanied by the sentence of condemnation passed against the convicted person by the competent Court of the State that makes the requisition for extradition.

The requisition ought, as far as possible, to be accompanied by a description of the person accused or convicted, in order to identify him.

A requisition for extradition cannot be founded on sentences passed in *contumaciam*.

ARTICLE IX.

If the requisition for extradition be in accordance with the foregoing stipulations, the competent authorities of the State applied to shall proceed to the arrest of the fugitive.

The prisoner is then to be brought before a competent magistrate, who is to examine him and to conduct the preliminary investigation of the case, just as if the apprehension had taken place for a crime committed in the same country.

The extradition shall not take place before the expiration of fifteen days from the apprehension, and then only if the evidence be found sufficient, according to the laws of the State applied to, either to justify the committal of the prisoner for trial, or to prove that the prisoner is the identical person convicted by the Courts of the State which makes the requisition.

ARTICLE X.

In the examinations which they have to make, in accordance with the foregoing stipulations, the authorities of the State applied to shall admit as entirely valid evidence the sworn depositions or statements of witnesses taken in the other State, or copies thereof, and likewise the warrants and sentences issued therein, provided such documents are signed or certified by a judge, magistrate, or officer of such State, and are authenticated by the oath of some witness, or by being sealed with the official seal of the Minister of Justice, or some other Minister of State.

ARTICLE XI.

If sufficient evidence for the extradition be not produced within two months from the date of the apprehension of the fugitive, he shall be set at liberty.

ARTICLE XII.

All articles seized, which were in the possession of the person to be surrendered at the time of his apprehension, shall, if the competent authority of the State applied to for the extradition has ordered the delivery thereof, be given up when the extradition takes place; and the said delivery shall extend not merely to the stolen articles, but to everything that may serve as a proof of the crime.

ARTICLE XIII.

Each of the High Contracting Parties shall defray and bear expenses incurred by it in the arrest, maintenance, and conveyance of the individual to be surrendered till placed on board ship, as well as in keeping and conveying the articles which are to be delivered up in conformity with the stipulations of the preceding Article.

The individual to be surrendered shall be conveyed to the port specified by the applying Government, at whose expense he shall be taken on board the ship to convey him away.

If it be necessary to convey the individual claimed through the territories of another State, the expenses incurred thereby shall be defrayed by the applying State.

ARTICLE XIV.

The stipulations of the present Treaty shall be applicable to the colonies and foreign possessions of the two High Contracting Parties.

The requisition for the surrender of a fugitive criminal who has taken refuge in a colony or foreign possession of either party, shall be made to the Governor or chief authority of such colony or possession by the Chief Consular Officer of the other in such colony or possession; or, if the fugitive has escaped from a colony or foreign possession of the party on whose behalf the requisition is made, by the Governor or chief authority of such colony or possession.

Such requisitions may be disposed of, subject always, as nearly as may be, to the provisions of this Treaty, by the respective Governors or chief authorities, who, however, shall be at liberty either to grant the surrender, or to refer the matter to their Government.

Her Britannic Majesty shall, however, be at liberty to make special arrangements in the British colonies and foreign possessions for the surrender of Swedish and Norwegian criminals who may there take refuge, on the basis, as nearly as may be, of the provisions of the present Treaty.

ARTICLE XV.

C. J. GRAHAM.

QUEENSLAND, } Proclamation by The Most
to wit. } Honorable GEORGE AUGUSTUS

CONSTANTINE, Marquis of Normanby, Earl of Mulgrave, Viscount Normanby, and Baron Mulgrave of Mulgrave, all in the County of York, in the Peerage of the United Kingdom; and Baron Mulgrave of New Ross, in the County of Wexford, (L.S.) in the Peerage of Ireland; a Member NORMANBY, of Her Majesty's Most Honorable Governor. Privy Council, Governor and Commander-in-Chief of the Colony of Queensland and its Dependencies.

IN pursuance of the authority in me vested, and in accordance with the provisions of "The Mineral Lands Act of 1872," I, GEORGE AUGUSTUS CONSTANTINE, Marquis of Normanby, the Governor aforesaid, with the advice of the Executive Council, do hereby notify and proclaim that the Regulations with respect to the alienation of, or otherwise dealing with, Mineral Lands within certain districts, proclaimed under my Hand and Seal on the thirty-first day of October, one thousand eight hundred and seventy-two, and twenty-first day of March, one thousand eight hundred and seventy-three, shall be, and are, hereby rescinded, and that the following Regulations are established in lieu thereof:—

REGULATIONS.

Regulations to apply to such districts as may be notified by Minister.

1. These Regulations are to apply to such districts from such time and during such periods as the Minister for Lands may, by notice in the *Government Gazette*, from time to time prescribe.

General Regulations applicable.

2. The general Regulations under the Act, proclaimed on 31st October, 1872, shall also apply to any district where these Regulations are in force, so far as they are not inconsistent therewith.

Commissioner may be appointed.

3. A Commissioner or other officer may be appointed to administer these Regulations in any district.

Mode of application for mineral lands.

4. Applications to purchase or lease mineral lands must be made on the forms in the schedule annexed to the general Regulations established under the Act, proclaimed on the 31st October, 1872, and must be lodged at the office of the Commissioner between the hours of ten and three, except on Saturdays, when the hours will be from ten to twelve. The applications must be accompanied by a payment of five shillings per acre by way of deposit or first year's rent, as the case may be, together with the survey fee, as per scale in schedule H. in "The Crown Lands Alienation Act of 1868."

Application must contain a clear description.

5. The application must contain a clear description sufficient to enable the selection to be marked off on the plan in the Commissioner's office.

Commissioner's monthly court.

6. The Commissioner will periodically hold an open Court for the purpose of giving his decisions as to the acceptance or rejection of applications, the days of holding which will be notified in the *Government Gazette* and local papers. Applicants or their agents are required to attend at this court, failing which, on their names being called, their applications will be rejected, and the sum of one pound retained as a penalty out of the moneys lodged with the applications.

At such court the Commissioner will hear objections and protests, if any, and provisionally accept or reject any application; but no title will accrue to the applicant until confirmation by the Secretary for Lands.

Duties of Commissioner.

7. The Commissioner is empowered to receive applications to purchase or lease mineral lands, and cause them to be entered in the order of their receipt in an Application Book kept for that purpose, with the date and hour of such receipt.

The Commissioner will examine the applications in the order in which they are entered in the Application Book, and ascertain, by comparison with the plans of the district, whether sufficient vacant land exists to satisfy each application, or if it interferes with any existing claim, and will give his decision as to the acceptance or rejection of each application at the next sitting of the Commissioner's Court.

The Commissioner is empowered (subject to appeal to the Secretary for Lands) to reject any application, for any of the following reasons:—

1. When the land has been already selected or reserved for public purposes, or where it is desirable for the public good that the same should be so reserved.
2. When the description contained in any application is insufficient to indicate the land applied for.

After acceptance is publicly notified as aforesaid each application to purchase or lease shall be duly entered in registers to be kept for the purpose.

The Commissioner will make arrangements for the survey of all accepted applications by a licensed surveyor approved by the Surveyor-General, and on receipt of each plan, which must be in duplicate, he shall forward one copy to the Surveyor-General, and retain the other for office use.

Commissioner may decide disputes.

8. The Commissioner shall have power (subject to appeal to the Minister for Lands) to hear and decide upon, and to make any necessary order in any dispute that may arise in any matter connected with the boundaries of applications for mineral lands, pending survey.

Permissive occupation license may be issued by the Commissioner in certain cases.

9. No title to any land applied for shall accrue to any applicant, or any contract considered as created, until the Minister confirms the application; but if it is unobjectionable, and there is no dispute as to boundary, the Commissioner may issue a permissive occupation license, pending confirmation, which shall be in the form B, which shall be revocable at any time by demand of possession, to be made by the Commissioner, and any right of occupancy acquired thereunder shall, immediately on such demand, cease.

MINING LICENSES.

Commissioners to issue licenses.

10. The Commissioner is empowered to issue mining licenses under the 34th section of the Act to any persons, on payment of the sum of ten shillings for each license, but such licenses shall only be available to the holders within the area proclaimed under the 33rd section of the Act.

Mining Licenses must be held by all workers in claims.

11. A license issued under the Act will only authorise the person in whose name it is granted to mine in any claim, and will not empower him to employ any person in mining in his claim unless he is also the holder of a Mining License.

Size of Claim under mining license.

12. The claim allowed to each holder of a Mining License shall be a block of land three chains square, each side being one hundred and ninety-eight feet, which may include both sides of any river, creek, or watercourse, provided the same are within the limits of the claim. A space of three feet to be left between the boundaries of claims, unless amalgamated under clause 19.

Claim to be properly pegged.

13. The holders of any claim shall, on pain of forfeiture, mark the boundaries of such claims by driving in at each corner a substantial peg, to stand

at least two feet above the ground, which shall be kept at all times clear of rubbish or soil during the occupation thereof; and any person, unless authorised by the Commissioner to do so, who shall either remove, injure, or destroy, or cover such peg shall be liable to the penalty prescribed in the second section of the Act 16 Vic., No. 15. In the case of claims having a frontage to any river, creek, or watercourse, pegs must be driven at each extremity of the frontage on the margin of the watercourse, in addition to the pegs at the corners.

Marking off more ground than allowed.

14. Any miner marking off more ground than he is entitled to by these Regulations, shall be liable to have the ground so marked off, pegged off at either end, at the option of the disputant, upon same being proved to the satisfaction of the Commissioner.

Claims must be worked.

15. Each claim must be worked within forty-eight hours after the boundaries are marked, otherwise such claims shall be deemed to be abandoned.

Claims to be continuously worked.

16. All claims, except when otherwise provided, shall within forty-eight hours after the boundaries are marked be effectively and continuously worked, and each claim shall be considered "effectively and continuously worked" when six hours *bonâ fide* work is performed thereon, or in connection therewith, on every working day except Saturday.

Unworked Claims.

17. Any claim remaining unworked and unregistered, or not being worked in a *bonâ fide* manner for three clear ordinary working days, shall be deemed to be abandoned.

Registration of claims.

18. Any miner who shall from illness be unable to work, or who shall be in attendance at any court of justice, or whose absence from his claim is rendered necessary by some urgent business, shall, on proof being afforded to the Commissioner, be entitled to a written registry to the effect that such claim is held in reserve for him, and a copy of such registry shall be posted on every claim so reserved.

Claims may be amalgamated.

19. Any party holding contiguous claims not exceeding six in number will be entitled to amalgamate their claims, and to work the same as one claim; but the number of men to be maintained in working the ground must be at least equal to the number of claims amalgamated, otherwise the Commissioner shall have power to cancel the amalgamation, or to amend it by reducing the size of the claim. Provided that in special cases any number of claims may be amalgamated, subject to the above condition as to number of men employed, by permission of the Commissioner.

Commissioner may adjust claims.

20. All claims held under mining licenses shall be subject to adjustment by the Commissioner, who shall, if he see fit, mark the claims with pegs bearing the Government broad-arrow brand, and any person otherwise than those duly authorised by the Commissioner to do so, who shall either remove or destroy any such peg, shall be liable to the penalty prescribed in the second section of the Act 16 Vic., No. 15.

GENERAL PROVISIONS.

Construction of dams and races.

21. Holders of mineral claims under the purchasing, leasing, or licensing sections of the Act, who may require to construct dams, races, or drains, extending beyond the limits of their claims, will be required to notify the same to the Commissioner, in writing, stating the nature and particulars of such work, and the Commissioner shall thereupon notify the same to all parties interested or affected by the carrying out and construction of the works; and if objections be made, the Commissioner shall hear and decide whether they be admissible or otherwise, and thereupon make such orders as may be necessary to meet the require-

ments of the case, the action taken by the Commissioner in all cases being subject to the approval of the Secretary for Lands.

Commissioner may issue orders relative to working claims, &c.

22. For the purpose of carrying out the foregoing Regulations, the Commissioner shall have power to make such orders, not inconsistent with the Act or these Regulations, relative to the proper working of claims, divisions of river or creek frontages, giving right of access to water as to him shall appear expedient, and each such order shall be in writing, signed by the Commissioner, and shall be duly served on the owner or occupier of any claim to which it may apply. And any owner or occupier who shall neglect to comply with such order, shall forfeit or pay for every such offence, any sum not exceeding £10, to be recovered in a summary way before any two justices.

Trespassers may be prosecuted.

23. Any person working for minerals upon land reserved for town or other purposes, whether proclaimed or otherwise, who may have been forcibly ejected therefrom, in pursuance of section 39 of the Act, or may have been warned against working thereon by the Commissioner or other officer, may be prosecuted for trespass on an information to be laid by the Commissioner, if found working (unless duly authorised) within the same reserve at any subsequent time after such forcible ejection or warning as aforesaid, and shall be liable to the penalties prescribed in the seventy-second section of "The Pastoral Leases Act of 1869."

SCHEDULE A.

Permissive Occupation License—"Mineral Lands Act of 1872."

This right is to protect the selection from intrusion or trespass, but gives no title to the land beyond a permissive occupancy, which the undersigned may determine at any time by demand of possession.

Any dispute as to boundary will be determined irrespective of the fact of the issue of this permission, and the power is expressly reserved to the Secretary for Lands to confirm or reject this application, as he may see fit, and the law allows.

NEW GOLD FIELDS.

REWARDS TO DISCOVERERS.

THE Government are prepared to give Rewards to the discoverers of New Gold Fields, in accordance with the following Regulations:—

1. That person will be deemed the discoverer who shall first find gold, mark out a claim, and notify the same in writing to the Gold Commissioner of the district, if there be one—if not, to the Police Magistrate for the district, or of the nearest district. In such notification the discoverer shall state, as nearly as practicable, the exact locality, and the distance from the nearest gold workings, or nearest town.

2. No reward will exceed one thousand pounds. In fixing the amount to be paid for any discovery regard will be had to the number of men employed in the new gold field, its distance from the nearest gold workings, the character of the deposit in which the gold occurs, and the depth of sinking.

3. If two or more persons simultaneously discover gold in the same locality, or in places immediately adjacent, and they each severally comply

with the conditions abovementioned, the sum proper to be awarded will be divided amongst the several persons who have discovered the gold fields in such manner the Government may deem just.

4. Rewards shall be given in accordance with the following scale, namely:—

a. For the discovery of a gold field, distant more than twenty miles from the nearest gold workings, and on which there shall be employed three months after the report of the discovery having been made not less than 200 men, a sum not exceeding £500.

b. For the discovery of a gold field, distant more than twenty miles from the nearest gold workings, and on which there shall be employed six months after the report of the discovery not less than 500 men, a sum not exceeding £1,000.

The words “nearest gold workings” shall mean gold workings on which miners are actually employed in searching for gold.

The above rewards are in addition to the prospecting, or reward claims, to which, by the Gold Fields Regulations of 31st October, 1873, discoverers of new fields are entitled.

By Command,

J. MALBON THOMPSON.

WEDNESDAY, 7TH JANUARY, 1874.

[No. 8.

AT NOON, this day, His Excellency the GOVERNOR proceeded in State from Government House to the Legislative Chambers, to open the First Session of the Seventh Parliament of Queensland, and delivered the following Speech :—

HONORABLE GENTLEMEN OF THE LEGISLATIVE COUNCIL,

AND GENTLEMEN OF THE LEGISLATIVE ASSEMBLY,—

I have very much pleasure in meeting, for the first time, the *seventh* Parliament of Queensland.

In consequence of the passing of "*The Electoral Districts Act of 1872*" the House of Assembly has received a large addition to the number of its members, and, as a consequence, the Members of the Legislative Council have been proportionately increased; I trust that this Parliament will maintain the high character which has hitherto distinguished the Parliaments of Queensland.

The continued improvement in the Public Revenue appears to render a reduction of taxation both practicable and desirable, and a proposal for the immediate abolition of the duty on all machinery and salt, and the gradual reduction and final extinction of the *ad valorem* duties on most of the articles now subject to them will be submitted to you.

The necessity for the appointment of a third Judge to the Supreme Court has pressed itself on the attention of the Government during the recess, and a Bill to authorise such appointment, regulate the salary of the Judges, and provide for the better conduct of the business of the Supreme Court will be laid before you; you will also be asked to provide for a fourth Judge, to be resident in the Northern Districts of the Colony.

The inconveniences of the present building used as the Supreme Court, and the increased traffic and noise in Queen street, render the erection of a Building for the Courts of Law in a more retired position desirable. A sum for that purpose has been placed on the Estimates.

The Local Road Boards have been found to answer so well, that the Government will feel justified in introducing a measure to place them on a more permanent footing.

The settlement of the country by a resident population has been steadily progressing throughout the Settled Districts of the Colony; and arrangements have been made for maintaining an ample area of available land open to selection, wherever the demand for it has been proved to exist.

A recent decision of the Supreme Court having declared it to be the law that the issue of titles to lands selected under "*The Crown Lands Alienation Act of 1868*," is entirely at the option of the Executive, a Bill for the appointment of a Commission to inquire into and decide upon claims to Titles to Land in cases of doubt or difficulty will be laid before you.

The Railways from Brisbane to Ipswich and from Westwood towards the Mackenzie River have been carried on very successfully under the system of small contracts, considering the limited amount of labor at the disposal of the engineers. When the works now in progress are approaching completion, a scheme for additional lines of rail and tramways in those districts which have not yet received their share of the expenditure will be submitted to you.

Immigration from the United Kingdom and the Continent of Europe has been steadily progressing, and you will find from returns which will be immediately laid before you, that more than the due proportion of the Loan has been expended; but seeing the demand for labor, and the rapidity with which all that has arrived has been absorbed, my Government have not ceased to impress on the Agent-General the necessity of sending out a regular and constant supply. Recent regulations in Germany will have the effect of stopping emigration from there to a very great extent; but the Agent-General has been directed to turn his attention to Northern Italy, from which country it is believed a large number of suitable immigrants can be procured.

The retirement of the Honorable John Bramston from office has appeared to the Government an appropriate time for carrying out an intention they have long entertained of making the offices of Attorney-General and Crown Prosecutor non-political; and the Honorable Ratcliffe Pring has been appointed Attorney-General on that understanding.

You will be asked to pass a measure creating a Minister of Justice, who must be a Member of the Executive and eligible for a seat in either House.

Our increasing commerce renders it necessary to provide for additional accommodation for Shipping in the Port of Brisbane, and approved Plans for carrying out this object, by utilizing the Reserve at Petrie's Bight, will be laid before you. You will also be asked to sanction Plans for extending George street to the river, and for building Wharves from the point of intersection to Harris' Wharf. This will not interfere with the Botanical Gardens, but will render it necessary to erect a new Government House, for which you will be asked to provide funds; but I have no doubt that this expenditure will be more than recouped by the sale or leasing of Wharfage and Store Sites, and the application of the present Government House to use as Public Offices.

GENTLEMEN OF THE LEGISLATIVE ASSEMBLY,—

The Estimates of Revenue and Expenditure for the year 1874 and the usual Supplementary Estimates will be laid before you at once.

I am happy to have it in my power to inform you that the financial operations of the past two years show a surplus of revenue over expenditure of about £240,000, after liquidating a previous deficit of £56,000; the greater part of this surplus my Government are prepared to recommend should be devoted to the carrying out of various public works, which would otherwise, following the usual course, be placed on loan.

HONORABLE GENTLEMEN AND GENTLEMEN,—

A number of Bills on various subjects, inclusive of a Gold Mining Bill, will be laid before you.

The establishment of a line of Mail Steamers through Torres Straits, yesterday initiated by the departure of the "Sun Foo," will, I trust, add great and important benefits to our commerce. All the papers connected with the Contract will be laid before you, and although I regret that the arrangement proposed last session to make Brisbane the terminus of the line could not be carried out except at an unjustifiable expense, I feel satisfied that the present contract will prove of great importance to the Colony.

The agreement entered into at the Conference in January of this year between the Representatives of New Zealand, New South Wales, and Queensland, for the construction of a Telegraphic Cable from Kimberley to Singapore, and from a port in New South Wales to a port in New Zealand, has been ratified by the Parliaments of New Zealand and Queensland, and now awaits the action of the Parliament of New South Wales which has been long delayed. Our overland line to the Gulf, notwithstanding the heavy floods which have occurred since its erection, has been in almost daily use.

Consequent on the reduction of Telegraphic Charges, a very large increase in the business of the Department has taken place. The receipts are nearly equal to those before the reduction, and I have no doubt that as the advantages of this means of communication are better understood its use will become much more general. My Government propose a considerable extension of the present Lines, and additional wires on the main routes.

I sincerely congratulate you on the continued prosperity of all our varied industries. The recent discoveries of magnificent lands on our Northern Coast Rivers suitable for the production of sugar and various tropical produce, and of very extensive gold fields on the Palmer and other rivers, and which discoveries are consequent on explorations undertaken under the auspices of my Government, are most satisfactory.

NEW GOLD FIELDS.

REWARDS TO DISCOVERERS.

THE Government are prepared to give Rewards to the discoverers of New Gold Fields, in accordance with the following Regulations:—

1. That person will be deemed the discoverer who shall first find gold, mark out a claim, and notify the same in writing to the Gold Commissioner of the district, if there be one—if not, to the Police Magistrate for the district, or of the nearest district. In such notification the discoverer shall state, as nearly as practicable, the exact locality, and the distance from the nearest gold workings, or nearest town.

2. No reward will exceed one thousand pounds. In fixing the amount to be paid for any discovery regard will be had to the number of men employed in the new gold field, its distance from the nearest gold workings, the character of the deposit in which the gold occurs, and the depth of sinking.

3. If two or more persons simultaneously discover gold in the same locality, or in places immediately adjacent, and they each severally comply with the conditions abovementioned, the sum proper to be awarded will be divided amongst the several persons who have discovered the gold fields in such manner the Government may deem just.

4. Rewards shall be given in accordance with the following scale, namely:—

a. For the discovery of a gold field, distant more than twenty miles from the nearest gold workings, and on which there shall be employed three months after the report of the discovery having been made not less than 200 men, a sum not exceeding £500.

b. For the discovery of a gold field, distant more than twenty miles from the nearest gold workings, and on which there shall be employed six months after the report of the discovery not less than 500 men, a sum not exceeding £1,000.

The words "nearest gold workings" shall mean gold workings on which miners are actually employed in searching for gold.

The above rewards are in addition to the prospecting, or reward claims, to which, by the Gold Fields Regulations of 31st October, 1873, discoverers of new fields are entitled.

WHEREAS by an Act of the Parliament of Queensland, passed in the thirty-fifth year of Her present Majesty's reign, intituled "*The Elections Act of 1872*," it was amongst other things enacted that no election for any electoral district should be void, in consequence solely of any delay in the holding of the election at the time appointed, or in the taking of the Poll, or in the return of the Writ, or in consequence of any impediment of a merely formal nature; and that the Governor, with the advice of the Executive Council, might adopt such measures as might be necessary for removing any obstacle of a merely formal nature, by which the due course of any election might be impeded, provided that the validity of such election, and the measures so taken, should be forthwith declared by the Governor, by a Proclamation for that purpose, published in the *Government Gazette*; and whereas a Writ was issued for the election of a member to serve in the Legislative Assembly for the Electoral District of Burke, whereby the nomination of such election was appointed to be held on the fourth day of the month of November last, and which Writ was made returnable on the thirty-first day of the month of December last, and whereas the Returning Officer duly appointed for the said electoral district hath certified, in accordance with the provisions of the said Act, that William Oswald Hodgkinson, Esquire, was duly chosen as a member for the said Electoral District of Burke; but the said Writ was not returned to me within the period therein prescribed, as directed by the said Act: Now, therefore, I, GEORGE AUGUSTUS CONSTANTINE, Marquis of Normanby, as such Governor aforesaid, do, by this my Proclamation, issued with the advice of the Executive Council aforesaid, declare that the election of the said William Oswald Hodgkinson, Esquire, to serve as a member for the Electoral District of Burke aforesaid, in the Legislative Assembly of Queensland, is valid, notwithstanding the delay in the return of the said Writ of Election.

REWARDS TO DISCOVERERS.

THE Government are prepared to give Rewards to the discoverers of New Gold Fields, in accordance with the following Regulations:—

1. That person will be deemed the discoverer who shall first find gold, mark out a claim, and notify the same in writing to the Gold Commissioner of the district, if there be one—if not, to the Police Magistrate for the district, or of the nearest district. In such notification the discoverer shall state, as nearly as practicable, the exact locality, and the distance from the nearest gold workings, or nearest town.

2. No reward will exceed one thousand pounds. In fixing the amount to be paid for any discovery regard will be had to the number of men employed in the new gold field, its distance from the nearest gold workings, the character of the deposit in which the gold occurs, and the depth of sinking.

3. If two or more persons simultaneously discover gold in the same locality, or in places immediately adjacent, and they each severally comply with the conditions abovementioned, the sum proper to be awarded will be divided amongst the several persons who have discovered the gold fields in such manner the Government may deem just.

4. Rewards shall be given in accordance with the following scale, namely:—

a. For the discovery of a gold field, distant more than twenty miles from the nearest gold workings, and on which there shall be employed three months after the report of the discovery having been made not less than 200 men, a sum not exceeding £500.

b. For the discovery of a gold field, distant more than twenty miles from the nearest gold workings, and on which there shall be employed six months after the report of the discovery not less than 500 men, a sum not exceeding £1,000.

The words "nearest gold workings" shall mean gold workings on which miners are actually employed in searching for gold.

The above rewards are in addition to the prospecting, or reward claims, to which, by the Gold Fields Regulations of 31st October, 1873, discoverers of new fields are entitled.

NEW GOLD FIELDS.

REWARDS TO DISCOVERERS.

THE Government are prepared to give Rewards to the discoverers of New Gold Fields, in accordance with the following Regulations:—

1. That person will be deemed the discoverer who shall first find gold, mark out a claim, and notify the same in writing to the Gold Commissioner of the district, if there be one—if not, to the Police Magistrate for the district, or of the nearest district. In such notification the discoverer shall state, as nearly as practicable, the exact locality, and the distance from the nearest gold workings, or nearest town.

2. No reward will exceed one thousand pounds. In fixing the amount to be paid for any discovery regard will be had to the number of men employed in the new gold field, its distance from the nearest gold workings, the character of the deposit in which the gold occurs, and the depth of sinking.

3. If two or more persons simultaneously discover gold in the same locality, or in places immediately adjacent, and they each severally comply with the conditions abovementioned, the sum proper to be awarded will be divided amongst the several persons who have discovered the gold fields in such manner the Government may deem just.

4. Rewards shall be given in accordance with the following scale, namely:—

a. For the discovery of a gold field, distant more than twenty miles from the nearest gold workings, and on which there shall be employed three months after the report of the discovery having been made not less than 200 men, a sum not exceeding £500.

b. For the discovery of a gold field, distant more than twenty miles from the nearest gold workings, and on which there shall be employed six months after the report of the discovery not less than 500 men, a sum not exceeding £1,000.

The words "nearest gold workings" shall mean gold workings on which miners are actually employed in searching for gold.

The above rewards are in addition to the prospecting, or reward claims, to which, by the Gold Fields Regulations of 31st October, 1873, discoverers of new fields are entitled.

TENDERS will be received at the Office of the Superintendent of Electric Telegraphs, Brisbane, until noon, on MONDAY, the twenty-third day of February next, from persons desirous of contracting for the supply of all material, except wire and insulators, and for all workmanship necessary for the erection of the undermentioned line of Telegraph, according to the terms, general conditions, and specifications appended hereto.

From Roma, via Surat, to St. George, a distance of one hundred and ten (110) miles, more or less.

The wire and insulators to be supplied by the Government, and delivered to the contractor at Brisbane, about two months after the notification of the acceptance of the Tender.

Tenders must state separately:—

1. Price, per mile, for clearing and timber work.
2. Price, each, for extra poles, where necessary.
3. Price, per foot, for extra length poles, where necessary.
4. Price, per mile, for affixing insulators and stretching wire.

The whole contract to be completed and handed over to the Government, within eight (8) months from the notification of the acceptance of the tender.

GENERAL CONDITIONS.

Payment will be made monthly to the extent of seventy-five (75) per cent. on the value of the work reported to have been completed by the officer appointed to inspect the same; but, notwithstanding such report and payment on account, the Superintendent of Electric Telegraphs, or other officer appointed by him in that behalf, shall have full power at any time afterwards, before final payment shall be made, of rejecting and condemning any of the work or materials in respect of which such report and payments may have been made. The total balance will be paid when the entire contract shall have been completed to the satisfaction of the Government.

The contractor may avail himself of the facilities afforded by "*The Electric Telegraph Act*" for obtaining materials, on signing a bond indemnifying the Government against any claims for compensation arising from the action of the contractor, and providing for any claims being paid by the Superintendent from moneys due to the contractor, if not otherwise settled.

The contractor will be responsible for all claims for compensation for damage to fences or other property, caused by the erection of the line; also, for damage so caused to roads; and if such claims are not defrayed, the Superintendent is authorised to pay the same from any moneys due to the contractor.

Should the contractor fail to proceed in the execution of, or to complete the work in the manner and at the rate of progress required by the Govern-

ment, it shall be in the power of the Government, by a notice in the *Queensland Government Gazette*, to terminate the contract as far as relates to the work remaining to be done, and to enforce the penalties for the non-fulfilment of the contract; and all sums of money which may be due to the contractor, together with all materials and implements in his possession on the ground, and all sums of money, whether named in the bond to be entered into by the contractor or otherwise, as penalties for the non-fulfilment of the contract, shall be forfeited to the Government, and the amount shall be considered as ascertained damages for breach of contract.

Attached to each tender there must be a memorandum signed by the party tendering, and two responsible persons as sureties, agreeing to be answerable for the due performance of the contract within the time stipulated, in the event of the tender being accepted; and undertaking, in that event, that they will severally execute and deliver at the office of the Crown Solicitor, in Brisbane, within ten (10) days from the notification of the acceptance of the tender, a Bond to Her Majesty in a sum equal to twenty (20) per cent. on the amount of the tender.

The Government does not bind itself to accept the lowest or any tender.

SPECIFICATION.

The course of the line to be marked out by the contractor, under the direction of the inspecting officer.

All trees and underwood standing within forty (40) feet on each side of the line to be felled, and all timber within a radius of twenty (20) feet from each pole to be cleared away, and a good straight bridle track, of not less than eight (8) feet in width, to be left open within the clearing.

Any branches overhanging from trees beyond the distance mentioned, which, in the judgment of the inspecting officer, might endanger the line, to be removed.

All existing cleared roads which may become blocked by fallen timber must be cleared by the removal of the timber to the original width of such roadway. In cases where tracks may become blocked, all fallen timber must be removed, leaving a cleared space of not less than twenty (20) feet in width, following the course of such track.

Poles to be heavy straight saplings, of the best description of approved hardwood (no spotted gum or Moreton Bay ash being allowed), with the bark removed, not less than nine (9) inches in diameter at five (5) feet from the butt, and five (5) inches in diameter at the top, and twenty-five (25) feet in length; to be carefully and thoroughly charred from the base upwards over a space of six (6) feet, and well coated with the best coal tar; the top to be firmly bound at one (1) inch from its extremity with good hoop iron, of not less than one (1) inch wide. The top of each pole to be served with a thick coating of white lead.

The poles to be not more than eighty-eight (88) yards apart, unless by special permission; to be sunk five (5) feet in the ground, placed in a perpendicular position, and well rammed with rubble and earth. At angles, or other places where required, struts, or supports of wood, to be supplied, and fixed as directed.

Insulating pins (to be provided by contractor) to be of split ironbark, according to pattern supplied, and to be fitted as directed; the lip of the insulator to be not less than one inch from the top of the pole. The wire to be so stretched that the deflection between any two posts shall not exceed two (2) feet. Joints or splices to be made as directed, and the wire tied to the insulator with the binding wire supplied.

All material used in the construction of this work, or any part of it, to be of the best quality, and, together with the workmanship, are to be subject to the final approval or rejection of the Superintendent of Electric Telegraphs, or any officer appointed by him to inspect the same.

Tender forms, and every information, may be obtained on application at the office of the Superintendent of Electric Telegraphs, Brisbane.

LEGISLATIVE ASSEMBLY.

HIS Excellency the Governor, in terms of "*The Legislative Assembly Act of 1867*," 31 Victoria, No. 21, directs it to be notified that a Petition, of which the subjoined is a copy, has been lodged with His Excellency against the election and return of Philip Henry Nind, Esquire, to serve in the Legislative Assembly as a Member for the Electoral District of Logan.

A. MACALISTER.

To the Most Honorable George Augustus Constantine, Marquis of Normanby, Governor and Commander-in-Chief of the Colony of Queensland and its Dependencies, &c., &c., &c.

The Humble Petition of Henry Jordan, of Tygum, in the Logan District, in the Colony of Queensland, sugar planter,

Respectfully sheweth,—

1. That at the last general election of members of the Legislative Assembly of the said colony, your petitioner was a candidate to represent the Electoral District of Logan in such Assembly.

2. That in pursuance of a writ for the election of a member to serve in the said Legislative Assembly for the said electoral district, directed to the returning officer of the said district, a nomination of candidates took place upon the eighteenth day of November, one thousand eight hundred and seventy-three.

3. That at the said nomination, the candidates nominated were Philip Henry Nind and your petitioner.

4. That a poll for such election took place upon the twenty-eighth day of November, one thousand eight hundred and seventy-three; and on the following day, James Gibson, Esquire, the Returning Officer, at the place of nomination, openly declared that, for the two persons nominated, the number of votes following were polled respectively, namely,—

Philip Henry Nind	202
Henry Jordan	201

and he at the same time and place declared the said Philip Henry Nind to have been duly elected a member of the said Legislative Assembly for the said electoral district of Logan; and he returned the said writ endorsed with the name of the said Philip Henry Nind as the person duly elected at such election.

5. That the ballot papers used at the said election, in addition to containing the names of the candidates printed in alphabetical order, contained the words "Schedule No. 11," in a separate line, immediately above the names of such candidates.

6. That your petitioner is informed and verily believes that the words "Schedule No. 11," so printed as aforesaid on the said ballot papers, were calculated to mislead, and, in fact, did mislead some of the electors in giving their votes at the said election; and your petitioner respectfully submits that the addition of such words to the said ballot papers was unauthorised by law, and in direct violation of the provisions of "*The Elections Act of 1872*."

7. That, at Beenleigh, one of the places at which the poll was taken at the said election, one vote was received after four o'clock in the afternoon of the day of the said election, and that your petitioner has been informed and verily believes that such vote was given for the said Philip Henry Nind.

8. That your petitioner is informed and verily believes that a large number of persons who tendered their votes at the said election were the holders of "Electors' Rights" which had been issued in violation of the provisions of "*The Elections Act of 1872*," inasmuch as such persons had not, before the issue of such electors' rights respectively, signed their names in the bodies thereof respectively, or made their marks thereon respectively in the presence of witnesses, but the

names of such persons were written in their said electors' rights respectively by other persons than the holders thereof respectively; and that notwithstanding such imperfections in their electors' rights, many persons were allowed to vote at the said election, whilst electors holding similar electors' rights were refused permission to vote or were prevented from voting at the said election.

9. That your petitioner has been informed and verily believes that, at the said election, other irregularities took place, in violation of the provisions of "*The Elections Act of 1872*."

10. That your petitioner, whose name is subscribed hereto, was, as before stated, a candidate at the said election, and has paid into the Union Bank of Australia, in Brisbane, the sum of one hundred pounds to the credit of the Speaker of the said Legislative Assembly in relation to this petition, and that the Bank deposit receipt for such sum is annexed hereto.

11. That your petitioner humbly submits that, by reason of the premises, the said election and return of the said Philip Henry Nind are illegal and void.

Your petitioner, therefore, humbly prays,—

1. That Your Excellency will cause this petition to be forthwith notified in the *Government Gazette*, and as soon as conveniently may be, laid before the Legislative Assembly.

2. That this petition may be referred by the said Legislative Assembly to the Committee of Elections and Qualifications as soon as the said committee shall have been duly appointed and confirmed.

3. That the said committee will determine and report that the said election and return of the said Philip Henry Nind were null and void.

4. That a new election may be had for the said Electoral District of Logan.

5. That your petitioner may have such further and other relief in the premises as the nature of the case may require.

And your petitioner will ever pray, &c.

HENRY JORDAN.

NEW GOLD FIELDS.

REWARDS TO DISCOVERERS.

THE Government are prepared to give Rewards to the discoverers of New Gold Fields, in accordance with the following Regulations:—

1. That person will be deemed the discoverer who shall first find gold, mark out a claim, and notify the same in writing to the Gold Commissioner of the district, if there be one—if not, to the Police Magistrate for the district, or of the nearest district. In such notification the discoverer shall

state, as nearly as practicable, the exact locality, and the distance from the nearest gold workings, or nearest town.

2. No reward will exceed one thousand pounds. In fixing the amount to be paid for any discovery regard will be had to the number of men employed in the new gold field, its distance from the nearest gold workings, the character of the deposit in which the gold occurs, and the depth of sinking.

3. If two or more persons simultaneously discover gold in the same locality, or in places immediately adjacent, and they each severally comply with the conditions abovementioned, the sum proper to be awarded will be divided amongst the several persons who have discovered the gold fields in such manner the Government may deem just.

4. Rewards shall be given in accordance with the following scale, namely :—

a. For the discovery of a gold field, distant more than twenty miles from the nearest gold workings, and on which there shall be employed three months after the report of the discovery having been made not less than 200 men, a sum not exceeding £500.

b. For the discovery of a gold field, distant more than twenty miles from the nearest gold workings, and on which there shall be employed six months after the report of the discovery not less than 500 men, a sum not exceeding £1,000.

The words "nearest gold workings" shall mean gold workings on which miners are actually employed in searching for gold.

The above rewards are in addition to the prospecting, or reward claims, to which, by the Gold Fields Regulations of 31st October, 1873, discoverers of new fields are entitled.

From Roma, via Surat, to St. George, a distance of one hundred and ten (110) miles, more or less.

Tenders must state separately:—

1. Price, per mile, for clearing and timber work.
2. Price, each, for extra poles, where necessary.
3. Price, per foot, for extra length poles, where necessary.
4. Price, per mile, for affixing insulators and stretching wire.

The whole contract to be completed and handed over to the Government, within eight (8) months from the notification of the acceptance of the tender.

GENERAL CONDITIONS.

Payment will be made monthly to the extent of seventy-five (75) per cent. on the value of the work reported to have been completed by the officer appointed to inspect the same; but, notwithstanding such report and payment on account, the Superintendent of Electric Telegraphs, or other officer appointed by him in that behalf, shall have full power at any time afterwards, before final payment shall be made, of rejecting and condemning any of the work or materials in respect of which such report and payments may have been made. The total balance will be paid when the entire contract shall have been completed to the satisfaction of the Government.

The contractor may avail himself of the facilities afforded by "The Electric Telegraph Act" for obtaining materials, on signing a bond indemnifying the Government against any claims for compensa-

tion arising from the action of the contractor, and providing for any claims being paid by the Superintendent from moneys due to the contractor, if not otherwise settled.

The contractor will be responsible for all claims for compensation for damage to fences or other property, caused by the erection of the line; also, for damage so caused to roads; and if such claims are not defrayed, the Superintendent is authorised to pay the same from any moneys due to the contractor.

Should the contractor fail to proceed in the execution of, or to complete the work in the manner and at the rate of progress required by the Government, it shall be in the power of the Government, by a notice in the *Queensland Government Gazette*, to terminate the contract as far as relates to the work remaining to be done, and to enforce the penalties for the non-fulfilment of the contract; and all sums of money which may be due to the contractor, together with all materials and implements in his possession on the ground, and all sums of money, whether named in the bond to be entered into by the contractor or otherwise, as penalties for the non-fulfilment of the contract, shall be forfeited to the Government, and the amount shall be considered as ascertained damages for breach of contract.

Attached to each tender there must be a memorandum signed by the party tendering, and two responsible persons as sureties, agreeing to be answerable for the due performance of the contract within the time stipulated, in the event of the tender being accepted; and undertaking, in that event, that they will severally execute and deliver at the office of the Crown Solicitor, in Brisbane, within ten (10) days from the notification of the acceptance of the tender, a Bond to Her Majesty in a sum equal to twenty (20) per cent. on the amount of the tender.

The Government does not bind itself to accept the lowest or any tender.

SPECIFICATION.

The course of the line to be marked out by the contractor, under the direction of the inspecting officer.

All trees and underwood standing within forty (40) feet on each side of the line to be felled, and all timber within a radius of twenty (20) feet from each pole to be cleared away, and a good straight bridle track, of not less than eight (8) feet in width, to be left open within the clearing.

Any branches overhanging from trees beyond the distance mentioned, which, in the judgment of the inspecting officer, might endanger the line, to be removed.

All existing cleared roads which may become blocked by fallen timber must be cleared by the removal of the timber to the original width of such roadway. In cases where tracks may become blocked, all fallen timber must be removed, leaving a cleared space of not less than twenty (20) feet in width, following the course of such track.

Poles to be heavy straight saplings, of the best description of approved hardwood (no spotted gum or Moreton Bay ash being allowed), with the bark removed, not less than nine (9) inches in diameter at five (5) feet from the butt, and five (5) inches in diameter at the top, and twenty-five (25) feet in length; to be carefully and thoroughly charred from the base upwards over a space of six (6) feet, and well coated with the best coal tar; the top to be firmly bound at one (1) inch from its extremity with good hoop iron, of not less than one (1) inch wide. The top of each pole to be served with a thick coating of white lead.

The poles to be not more than eighty-eight (88) yards apart, unless by special permission; to be sunk five (5) feet in the ground, placed in a perpendicular position, and well rammed with rubble and earth. At angles, or other places where required, struts, or supports of wood, to be supplied, and fixed as directed.

Insulating pins (to be provided by contractor) to be of split ironbark, according to pattern supplied, and to be fitted as directed; the lip of the insulator to be not less than one inch from the top of the pole. The wire to be so stretched that the deflec-

tion between any two posts shall not exceed two (2) feet. Joints or splices to be made as directed, and the wire tied to the insulator with the binding wire supplied.

All material used in the construction of this work, or any part of it, to be of the best quality, and, together with the workmanship, are to be subject to the final approval or rejection of the Superintendent of Electric Telegraphs, or any officer appointed by him to inspect the same.

Tender forms, and every information, may be obtained on application at the office of the Superintendent of Electric Telegraphs, Brisbane.

GOLD FIELDS REGULATIONS.

Department of Public Works,
Brisbane, 30th January, 1874.

HIS Excellency the Governor, with the advice of the Executive Council, has been pleased to establish the following amended Regulations, under the provisions of the Act of Parliament 20 Victoria, No. 29, for the Management of the Gold Fields of this Colony.

By Command,
THOMAS McILWRAITH.

GENERAL REGULATIONS.

Former Regulations repealed.

1. All Regulations hitherto in force for the management of the gold fields are hereby repealed, and the following are substituted in lieu thereof.

Interpretation of terms.—Commissioner.

2. (1.) The term "Commissioner," when used in these Regulations, shall be understood to mean a Commissioner, Assistant Commissioner, or Sub-Commissioner, in charge of any particular gold field, or of any portion thereof.

Claim.

(2.) The term "claim" shall be taken to apply to any authorised holding whatever, unless otherwise specified.

Commissioner empowered to make temporary rules.

3. The Commissioner may at any time make such temporary rules or orders, not inconsistent with the Act 20 Victoria, No. 29, or with these Regulations, as he may consider necessary for regulating the mode of washing at any stream or waterhole, for the prevention of injury of a public nature by the deposit of tailings or refuse from any cradle, tom, sluice, or crushing-machine.

Commissioner empowered to decide disputes.

4. The Commissioner shall have power to decide upon and make any necessary order in any dispute that may arise in any matter connected with the gold fields' management, and not herein provided for; but no such decision or order shall be inconsistent with these Regulations, or with the Act of Parliament 20 Victoria, No. 29.

Prospecting.

5. As a reward for the discovery of gold in any new locality, the Commissioner may, in his discretion, allot to any miner or party of miners discovering the same, in addition to the claim

which each individual would otherwise be entitled to, any number of claims not exceeding ten, if the discovery be within the limits of a gold field, and not exceeding twenty, if at a distance of three miles or upwards from the limits of any known gold field; such claims to be in conjunction, and if practicable to be measured in a rectangular block, as hereinafter provided. For the purpose of this regulation a new locality shall be taken to mean ground previously unworked, and capable of affording employment to not less than fifty miners.

Size claims within 440 yards from nearest shaft bottomed.

6. Any miner or party of miners discovering payable gold within not less than four hundred and forty yards distant from the nearest claim then bottomed and being worked, shall be entitled to an area of ground not exceeding two hundred feet square.

On lost lead.

7. The first miner or party of miners discovering payable gold on a lost lead or working shall be entitled to an area of ground not exceeding one hundred feet square.

Number of men in party.

8. In these Regulations a party shall be considered as consisting of any number of men not exceeding four, and no ordinary claim will be allowed in extent greater than for a party of four, except in cases of amalgamation by registry, or as hereinafter provided.

Title to prospecting claims.

9. All prospecting claims shall be marked off in the manner of ordinary claims; such marking to be deemed good and sufficient title to such claim until the discovery of gold thereon, when the party holding the same will be required to report the discovery to the Commissioner, with a view of the claim being registered, as hereafter provided.

Transfer of claims or shares.

10. Any claim or interest therein may be transferred to any authorised person; but such transfer shall not be recognized until registered by the Commissioner, and previous to such transfer a notice in writing must be posted on some conspicuous part of the claim for three clear ordinary days.

Registration of claims.

11. Any miner who shall, from illness, be unable to work, or who shall be in attendance at any court of justice, or whose absence from his claim is rendered necessary by some urgent business, shall, on proof being afforded to the Commissioner, be entitled to a written registry to the effect that such claim is held in reserve for him, and a copy of such registry shall be posted on every claim so reserved.

Claims to be properly pegged.

12. The holder of any claim on auriferous land of any description, except reefs or veins of quartz and frontage claims, shall, on pain of forfeiture, mark the boundaries of such claim by driving in at each corner a substantial peg, to stand at least two feet above the ground, which shall be kept at all times clear of rubbish or soil during the occupation thereof; and no person shall remove, injure, destroy, or cover any such peg.

Marking off more ground than allowed.

13. Any miner marking off more ground than he is entitled to by these Regulations, shall be liable to have the ground so marked off, pegged off at either end, at the option of the disputant, upon same being proved under the provisions of clause 4 preceding.

Claims to be worked within forty-eight hours.

14. All claims must be worked within forty-eight hours after boundaries have been marked out, with the requisite number of men as hereafter provided; otherwise such claim or claims shall be deemed to be abandoned.

Unworked claims.

15. Any claim remaining unworked and unregistered for three clear ordinary working days, shall be liable to be forfeited.

Mining allotment.

16. Each person holding a miner's right will be permitted to occupy and enclose for the purpose of residence, so much land as may be determined by the Commissioner, not exceeding eight hundred square yards.

Business allotment.

17. Each person holding a business license shall be permitted to occupy, for purposes other than gold digging, land not exceeding in dimensions sixty feet by one hundred and twenty feet. The Commissioner may in his discretion further allot to the same party on payment of an additional license fee, additional land to an equal extent; and when such land is situated in a position detached from any tents or buildings, and away from any main road or line of stores or shops, the Commissioner may permit the same person to occupy, under such license, an area not exceeding three times the abovenamed extent.

Transfer of business license.

18. A business license may be transferred, and shall be available on any gold field to which the licensee may remove, provided it be endorsed by the Commissioner.

Renewal of business license.

19. Whenever any business license under which any allotment is held expires, and is not renewed, the said allotment shall not be liable to forfeiture in consequence thereof until three calendar months after notification of the expiring of such license in the *Government Gazette*, within which time the said license may be renewed, provided that the same shall date from the expiry of the preceding one.

Inadmissible claims.

20. No claim will be allowed in any position where, by its interference with the supply of water requisite for the public, by undermining or digging up of roads, or by obstructing public thoroughfares, the general interests will be injured.

Land enclosed or occupied not to be worked without authority.

21. No miner shall dig upon or undermine any land enclosed by any authorised occupant, or which is occupied by any building, or with machinery in connection with mining operations, or used as a garden, or as a Government camp, police station, or for any public purpose, unless such miner first deposits with the Commissioner such an amount in money as the Commissioner and assessors, as provided in the Act 20 Victoria, No. 29, may deem sufficient to compensate for removal or any loss occasioned thereby.

No sludge-hole to be cut to the damage of other miners.

22. No miner shall dig into, cut away, or undermine the bank of any excavation or hole containing sludge or water, in such a manner as to cause damage to any claim, waterhole, dam-bank, drain, roadway, engine, mill, machine, or any substance containing gold, the property of any other miner or miners.

Commissioner may allow new roads to be made.

23. Upon any four or more persons applying for a road or crossing place over any gully, creek, quartz reef, or other obstruction, and guaranteeing that they will make the same if sanctioned, the Commissioner shall determine whether or not such road or crossing-place is necessary, and shall make such order relative thereto as he may deem requisite; and no person shall in any way resist the making of any such road or crossing place after its formation shall have been authorised by the Commissioner.

Shafts sunk near roads to be fenced, &c.

24. Any miner having a shaft or hole within the distance of ten feet from any road, footpath, or crossing-place in ordinary use, and not completely inclosed by the framework of the windlass, shall erect around such shaft or hole a substantial two-railed fence, the upper rail of which shall be at least three feet and a half above the surface of the ground; and shall also, on leaving such shaft or hole, either temporarily or otherwise, cover it with logs not less than six inches in diameter.

Fences not to be removed.

25. No person shall remove, cast down, or destroy any timber or fence placed for the purpose mentioned in the foregoing clause.

Water privilege.

26. A water privilege shall be taken to mean the right to convey, by means of a race, a specified quantity of water to any locality. Such water shall be measured by a plank sluice-head, having a sectional area of twelve inches by one, with a fall of one in twenty-four. Ground sluice-heads shall have twice that sectional area. The water privilege will be considered distinct from the general claim, and with the Commissioner's consent, may be held in connection with fresh claims. All water privileges not used and upheld for a period of fourteen days in the case of alluvial working, and of one week in the case of river working, shall be held to be forfeited unless such abandonment be explained to the satisfaction of the Commissioner.

Races.

27. Applications for water privileges, or for permission to cut races for sluice washing and other purposes, must be made in writing to the Commissioner, who will not grant such privileges or permission if, in his opinion, the public interest would be injuriously affected by a compliance with such applications; and in cases where any such water privilege has been granted, the water must be allowed to return to the ordinary channel whenever the Commissioner shall so direct. Persons wishing to divert water from races for the purpose of tomming or sluicing, may be permitted by the Commissioner to use the surplus water, on payment to the proprietors of the race of such sum as may be determined by the Commissioner, in conjunction with assessors appointed in the manner prescribed in the 14th clause of the Act 20 Victoria, No. 29. Surplus water shall be taken to mean all water in excess of the extent of water privilege.

Dams, reservoirs, or wells.

28. Persons desirous of constructing dams or reservoirs for washing gold, may apply in writing to the Commissioner, who will, if the same be unobjectionable, grant the requisite permission. The water contained in such reservoirs or dams, or in any wells sunk for domestic purposes with the consent of the Commissioner, shall be reserved for the exclusive use of the holders. When, however, any dam or reservoir interferes with the working of the bed of a river or creek, or obstructs the supply of water for domestic purposes, such dam or reservoir, if the Commissioner shall so direct, shall be temporarily lowered by the holder.

Machinery.

29. No machinery of any description, beyond the appliances for ordinary gold washing, shall be erected on any gold field, without the sanction of the Commissioner. Applications for permission to erect any machine used for gold washing must be made in writing to the Commissioner. Sanction will in no case be given until it has been shown to the satisfaction of the Commissioner that a notice of the intended application has been posted for seven clear days on the spot on which it is proposed to erect such machine, and also at the Commissioner's office. To prevent any injurious deposit of sludge from any machine, a condition will be attached to the sanction for its erection that the owner shall, at any time, on pain of suspension of operations, dispose of the sludge in such manner as the Commissioner shall direct.

RIVER CLAIMS.

Extent.

30. Thirty feet frontage for each miner will be allowed in the beds of rivers or main creeks running across the whole bed, unless the Commissioner deem the river or creek of such breadth as to render a division desirable, in which case he will determine the division. When from a superabundance of water, or other cause, such claims cannot be worked, they may be registered, but will be liable to forfeiture if the occupation is not resumed as soon as practicable.

Commissioner to make rules.

31. The Commissioner may make such orders, not inconsistent with the Act 20 Victoria, No. 29, or with these Regulations, relative to the proper working of river claims, as to him shall appear expedient, which orders shall be in writing, and shall be signed by the Commissioner, and shall be duly served on the owner of any claim to which they may apply; and any owner who shall neglect to obey any such order shall be deemed to have committed a breach of these Regulations, and shall, unless good reason be shown to the satisfaction of the Commissioner for such neglect, forfeit his claim.

Persons benefiting by race to share expenses.

32. When any race or tunnel shall be cut, or other operation performed, rendering such claim workable, any person or party benefiting thereby shall, before working their claim, on a penalty of forfeiture, pay such share of the expenses of such operation as may be assessed by the Commissioner, and two assessors appointed in the manner prescribed in the Act 20 Victoria, No. 29.

Number of claims not restricted.

33. The number of claims of this description to be granted to any one party will not be restricted, provided that the same be taken in conjunction.

FRONTAGE CLAIMS.

Frontage claim definition.

34. Frontage claims shall be taken to mean alluvial claims not in the bed of a creek or river, the sinkings on which shall not be less than fifty feet.

Size of claims.

35. Under the frontage system a claim shall not exceed, for four men, one hundred and twenty feet in length on the base line to be formed by the Commissioner, by a width of twelve hundred feet, until gold in payable quantities is found in the claim, when the width shall be reduced to two hundred feet.

Proclamation of lead.

36. Upon the receipt of a report of the discovery of new alluvial gold workings at a depth not less than fifty feet, the Commissioner shall affix a notice outside his office, and cause another similar one to be posted on a conspicuous place upon the claim in which the discovery shall have been made, stating a time within three (3) days, when the Commissioner shall attend for the purpose of causing such discovery to be tested, and there appoint five miners to test the auriferous nature of the earth contained in such claim; and if, in the opinion of the majority of the miners so appointed, it is declared that such ground is payable, the Commissioner shall declare the same to be a frontage lead, and shall proceed to measure off the claim to which the prospectors are entitled, and give them possession thereof.

Laying down of base line and application for unoccupied shares.

37. Upon the proclamation of any lead, the Commissioner shall lay down a base line, upwards and downwards, from the prospecting claim on the supposed course of such lead—on which line he shall mark the length of claims, and shall allot each claim according to priority of occupation on such lead, and shall also continue to mark off at least four claims to which there are no applicants, after which any miner wishing to occupy a vacant share on the frontage lead, shall in the first instance apply to the Commissioner, who shall register him for such share, and shall at the same time give him a certificate of registration, stating the date of registry, name of applicant or applicants, name of lead, and number of the claim.

If depth of sinking be less than fifty feet, frontage system to cease.

38. When the sinking in such ground shall be found not to reach a depth of fifty feet, of which the bottoming of one or more shafts on the supposed line of lead shall be a sufficient test,

all markings on the supposed line of lead shall be null, and the ground shall then be open for taking up claims in the manner otherwise prescribed in these Regulations: Provided that each miner, or party of miners, shall have the right to include any shaft which had actually been commenced in his or their future claims, taking such shaft for the centre.

Alteration of base line.

39. Should the actual course of a lead be found to differ materially from the course of the base line, and if the majority of claimholders affected thereby shall desire it, the Commissioner shall proceed to lay down a new base line, and lay off the claims on the new line according to their order on the former line.

Mode of marking claims.

40. The holder of a claim in a frontage lead shall erect, or cause to be erected, a post at each end of the claim, and so soon as payable gold has been found, the boundaries shall be marked by posts firmly fixed in the ground at each corner of the claim; such posts to be not less than three inches in diameter, to extend at least three feet above the ground, and to be kept visible during the occupation of the claim.

Working of claims.

41. On all declared leads not fewer than ten shafts must be continuously and effectively worked in the claims on either line of the lead next onward from the prospecting claim, and afterwards in advance of the last payable shaft.

Right of search for new leads within conditional boundaries.

42. Any miner who shall desire to enter upon a frontage claim in which payable gold has not been discovered, in order to search for a lead other than that for which the said claim has been registered, shall give notice to the holder of such claim, stating the portion of the claim he desires to enter upon, and if the claimholder shall consent to such entrance, the portion of ground entered upon shall be deemed to be forfeited. If the claimholder shall not consent to such entrance, the person desirous of entering upon the claim shall request the Commissioner to put him in possession of such ground, and if the Commissioner and two assessors shall decide that the portion of ground sought to be occupied would not interfere with the original holders in their search for the lead for which they are registered, such claim for the purpose of re-adjustment shall be considered forfeited by the holder thereof, and the Commissioner may put such claimant in possession of such portion as may be awarded, and the original holders shall be entitled to occupy the remaining portion of such claim, and shall be put in possession of same by the Commissioner, on application.

Convergence of leads.

43. In the case of a convergence of leads, the preference at and onwards from the junction shall be given to the claimholders on the lead first declared: Provided that at any time when a convergence shall seem probable, the Commissioner shall refuse any registry of claims excepting conditionally, until the actual position of the leads shall have been ascertained. Such claimholders, so conditionally registered, to post a notice containing the names in full of the shareholders, headed with the words "Conditionally Registered," on some conspicuous part of their claim; and the holders shall not be required to be present on such claim until after a notice approved by the Commissioner requiring their presence on the ground shall have been posted at his office, as well as on some conspicuous part of the last claim bottomed on each of the converging leads, such notice to extend over a period of seven (7) days.

Termination of frontage system.

44. On any declared lead, the majority of non-working claimholders (or shareholders) may require the frontage system to terminate, and on the application in writing of not less than twenty-four miners, the Commissioner shall proceed to such lead and hear evidence for and against the application. If the majority of the claimholders (or shareholders) shall appear to him to be in favor of the application, he shall fix a point not then being worked on such lead from which to declare the frontage system to have ceased.

ALLUVIAL CLAIMS OTHER THAN RIVER CLAIMS.

Extent of ground in dry alluvial sinking.

45. In dry alluvial sinking, the extent of ground shall be as follows, viz.:—

For one man	40 feet by 40 feet
„ two men	40 „ 80 „
„ three „	50 „ 80 „
„ four „	60 „ 80 „

Definition of wet alluvial claim.

46. The term "wet alluvial claim" shall mean where slabbing the shaft may be necessary on account of water: Provided that in no case shall surface water cause any claim to be deemed wet ground.

Extent of ground in wet alluvial sinking.

47. In wet alluvial sinking, the extent of ground shall be as follows, viz.:—

For two men	50 feet by 100 feet
„ three „	75 „ 100 „
„ four „	100 „ 100 „

Size of party.

48. In no case shall a party be considered to consist of more than four men, as provided in clause 8 of these Regulations, except in cases of amalgamation, notice of which must be posted on each claim, and duly registered with the Commissioner.

Working of alluvial claims.

49. All claimholders within six claims in every direction from the last shaft in which water shall have been struck, must proceed with the sinking of their respective shafts, during every lawful working day, until the well is completed; after which it shall be imperative upon the claimholders to keep the water in their respective claims reduced below the surface of the well-holes. Any infraction of these provisions will render the claims liable to forfeiture.

Size of claims in abandoned grounds.

50. The extent of claims in abandoned ground shall, with the sanction of the Commissioner, be double the length of the claims for dry or wet alluvial sinking, as provided in clauses 44 and 46 respectively.

All auriferous deposits property of claimholders.

51. The owner or owners of any claim shall be entitled to have and enjoy all quartz reefs, veins, leaders, and other deposits of gold within the area of such claim.

QUARTZ REEFS.*Definition of term "reef."*

52. The term "reef" shall be taken to mean a seam of quartz, or any substance containing gold other than alluvial.

Protection.

53. The protection area allowed for prospecting claims, or for taking up claims previously worked, and unoccupied quartz reef, shall be as follows, that is to say,—

Area of prospecting claims.

Within two miles from any known working reef,—400 feet by 600 feet.
Over two miles, and not exceeding five miles,—600 feet by 600 feet.
Beyond five miles,—800 feet by 600 feet.

Temporary holding and marking.

54. Such protection claims may be held temporarily by the erection of two substantial posts, one at each end of the claim, on the supposed line of reef, to stand at least three feet high from the ground, and to be kept visible during the working of claim.

Discovery of gold to be reported, and marking of claims.

55. Upon the finding of gold within any such claim, the miner will be required to report such discovery to the Commissioner, who shall appoint by notice, a time for attendance at the ground; and who shall then proceed to lay down the line or supposed line of the reef, and shall allot the claims thereon according to priority of occupation, and duly register the same, a copy of which registry shall be posted on the claim. No further sinking shall be commenced until the Commissioner has so laid out the claims, nor shall any miner be entitled to the ground he may have marked off previous to the arrival of the Commissioner, but merely to his priority of right on the declared line of reef derived from such marking.

Extent of claim awarded to discoverers of gold.

56. As a reward for the discovery of gold in any new locality, the miner or miners discovering the same shall be entitled to a claim of 120 feet for any distance not exceeding two miles from any known working reef; beyond two miles and not exceeding five miles, 200 feet; beyond five miles, 300 feet on the line of reef, by a width of 300 feet—by a width in each case of 150 feet from centre of such reef; at a distance of 400 yards from any then working shaft on any line of reef, any miner or party of miners shall be entitled to a prospecting claim of 200 feet. In all cases the owner or owners thereof shall be entitled to every reef, vein, leader, and all auriferous deposits within such limits.

Extent ordinary claims.

57. The extent of ordinary claim allowed for each miner, on the line of any quartz reef, shall be forty feet in the supposed direction of the same, by a width of 300 feet—150 feet on each side from the supposed centre of such reef, and the total number of claims allowed for any one party of miners actually employed shall not exceed six.

Registration of all claims with Commissioner.

58. The Commissioner shall keep a list of all prospecting claims, which have been duly registered by him, posted outside of his office for at least one week from the date of such registration.

Duties of claimholders on discovery of payable gold.

59. Within two days after payable gold has been found in any claim, notice thereof must be given to the Commissioner, who shall lay off the reduced width of such claim, and cause a red flag to be hoisted thereon. This clause applies to every description of sinking, except in cases of prospecting claims.

Neglecting to report discovery of gold.

60. Any prospector discovering gold, and neglecting to report the same to the Commissioner without delay, or within seven days, shall not be entitled to more than an ordinary claim.

When ground encroaches on an alluvial claim.

61. It is provided also that when the quantity of ground allowed under this Regulation cannot be entirely taken up, by reason of the ground deficient being occupied as an alluvial claim, immediately on such deficient ground being vacated the same shall be deemed to be allotted, as a matter of course, to the quartz-reef holders, any fresh application being unnecessary; and the owner or holders of any such amended claim shall be entitled to every reef, vein, leader, and all auriferous deposits within such limits.

Quartz claims to be marked by posts.

62. Any miner or party of miners who may be in authorised possession of any quartz claim shall, for the information of all other persons, mark the boundaries of such claim by the erection of six posts,—one at each end of it, on the base line, and one at each corner, to be at least three inches square, standing three feet above the ground, and kept at all times clear of rubbish, or anything which may tend to conceal them from view during occupation. And no person shall, on any pretence whatever, remove, destroy, or deface any such posts, nor shall any person erect any such posts with a view of inducing other persons to suppose that such ground is lawfully taken up and occupied.

How to be worked.

63. All quartz claims to be worked every ordinary working day by at least half the number of claimholders, except as hereinafter provided. On payable gold being found the full number of men shall be employed within six days of such finding; and upon the claim failing to be remunerative for one month, the number of miners as previously limited will be deemed sufficient for the working of such claim until payable quartz is again obtained, then the proper number of miners, as previously set forth, to be employed; failing which, the share or shares of such miner or miners remaining unworked shall be deemed forfeited, unless, in case of dispute, such non-employment can be justified under these Regulations: Provided also, that any miner employed in making necessary preparations for the working of any claim, or employed in the erection of machinery in connection with the same, shall be deemed as working upon the claim.

Claims when to be worked.

64. All quartz claims marked off by the Commissioner shall be worked within forty-eight hours from the time of marking, and any claim not in full work within that time, with the requisite number of men, as provided in clause 62 of these Regulations, shall be deemed to be abandoned.

Names of shareholders to be posted.

65. The names of the owner or of each of the owners of a claim, together with the number, date, and place of issue of the miner's right of him or of each of them, and also the number of the claim in its order, north or south of the prospecting claim, must always be kept posted on some conspicuous part of the claim.

Registration.

66. Any miner or miners desirous of registering his or their quartz claim or claims, taken under the provisions contained in these Regulations, must make an application in writing to the Commissioner, and must affix a notice in writing of such intention on some conspicuous part of such claim seven days previous to the certificate of registry being granted by the Commissioner, a copy of which must be kept posted on the claim during the whole term that the same is held in reserve.

Ordinary claims.

67. Ordinary quartz claims may be exempted from working—when after the expiration of six months *bonâ fide* work, no payable gold has been obtained for one month previous—for a period of six months from the date on which such work ceased.

False declarations.

68. Any miner or miners who shall have been proved to have obtained any registration of claim or claims by assigning false reasons, shall forfeit all his interest in the same.

Sinking or driving wall between quartz claims.

69. Between adjoining quartz claims a wall of three feet shall be preserved; and whenever any miner or miners, in marking off a new claim, shall have neglected to leave the proper space for the wall, the Commissioner shall deduct the necessary length from the claim last marked off, and assign it as a wall between such claim and the adjoining claim first marked. And, in like manner, when any miner or miners shall have marked off more than the proper share for a wall, the Commissioner may curtail such excess, and assign it to the holders of the claim first marked; or, if he deems it advisable, may order the boundary posts of the claim last marked to be removed to their proper position.

Tunnelling.

70. Any miner or party of miners may cut a tunnel for a reef, and twenty feet in breadth along the entire length of such tunnel shall be allowed as a protection for same, outside the boundary of their reef claim; such tunnel not to exceed one thousand yards in length; and they will be further

protected in being allowed to hold a space of one hundred and fifty feet square at the mouth of the tunnel, on which to deposit quartz or other substances taken from their tunnel or claim; and if a payable reef is struck in the tunnel outside the claim, the holders of such claim shall be entitled to a prospecting claim of the area provided in clause 52 of these Regulations.

Water in old shafts or openings.

71. The owner or owners of any quartz mine or mines having thereon disused shafts or openings, on receipt of a complaint in writing to the effect that the water contained in such shafts or holes is injurious to adjoining claims, will be required to have the same baled out, and to take measures to prevent the accumulation of surface water; and whenever the Commissioner shall decide that night and day baling is requisite, all miners who have struck water will be required to bale out such water every day and night, until it be exhausted or the claim abandoned. Non-compliance with this Regulation will render the share or the shares of the party liable to forfeiture.

Persons to stack quartz properly.

72. Any person who wishes to retain possession of any quartz-stone, casing, or other substance containing gold, the product of a quartz claim, may do so for any period of time not exceeding one year, although the claim from which it was taken has been relinquished: Provided that he stack such stone, casing, or other substance, in a proper manner, upon ground not supposed to be workable, and erect close to such stack a post with his name, address, and date of stacking legibly painted thereon; and no person shall remove, deface, or damage any such post so erected, or remove any quartz-stone, casing, or other substance, so stacked. Any stone, casing, or other substance taken from a claim, and not so stacked, shall be deemed to be abandoned and forfeited.

Area allowed for quartz-crushing machines.

73. The area for the site of any quartz-crushing machine shall not exceed three acres, such site to be registered with the Commissioner, as set forth in clause 65 of these Regulations; and if such site is proved to be auriferous, it may be mined under the conditions set forth in the following clause.

Compensation.

74. When the site occupied by any quartz-crushing machine, water-dam, water-race, reservoir, tramway, or site for stacking tailings or cement, shall be proved to be auriferous, it may be mined upon, provided the miner or miners intending to mine thereon shall (before breaking the ground or commencing to work) compensate the owner or owners of such quartz-crushing machine, water-dam, water-race, reservoir, tramway, or site for stacking tailings or cement, for any loss, damage, or injury, that may be sustained by him or them in consequence thereof. Such compensation may be determined by the Commissioner in conjunction with assessors appointed in the manner prescribed in the 14th clause of the Act 20 Victoria, No. 29.

Amalgamation.

75. When the depth of sinking shall exceed one hundred feet, or when difficulties are occasioned by water (other than surface water), it shall be lawful for the owners of adjoining claims on the same line of reef to amalgamate by registration, either temporarily or otherwise, and by posting on the non-working claim a notice of registry, and the length of claims taken together shall not exceed 400 feet, and the working of one or more shafts shall be taken to be the working of such amalgamated claims; the number of men employed shall be consistent with clause 62 of these Regulations.

Declaration of loss of miner's right.

76. When any miner loses his miner's right, or certificate of registration, or transfer certificate, by virtue of which he holds any share or portion of a share, he shall make a declaration of such loss before the Commissioner, and shall receive, for all the purposes connected with the transfer of his interest, a declaration in lieu of such miner's right, register, or transfer certificate, or any or either of them.

EXTENDED CLAIMS.

Extent.

77. Where the expense attending the erection of mining machinery or works is likely to be great, or where the poverty of the ground will warrant it, the Commissioner may, on application, allot to each miner proposed to be employed on such work, an extended claim, not to exceed in area four ordinary claims: Provided that each miner so to be employed be placed to work on the claim within a time to be fixed by the Commissioner, and be actually kept employed during the holding of such claim, unless it be shown to the satisfaction of the Commissioner that the work thereof is necessarily suspended. Every such extended claim shall be laid out in one block, and shall not exceed in area twenty ordinary claims. Four days' clear notice of the intention to apply to the Commissioner for an extended claim must be posted on the ground by the applicant. This Regulation shall apply to all extended claims, whether matrix, quartz, alluvial, or river; and in the event of any of the conditions not being fulfilled, the Commissioner may direct the forfeiture or such diminution of the claim as may meet the justice of the case.

Extended claims already sanctioned.

78. Nothing in the foregoing Regulations shall be taken to prejudice the right to occupation of any extended claim sanctioned by the Commissioner previously to the publication of these Regulations, so long as the conditions attending such sanction be fulfilled.

LEASES OF AURIFEROUS TRACTS.

79. Two classes of leases of auriferous tracts and quartz reefs will be granted :—

- (1.) Leases of an area not exceeding eight acres of alluvial land, five hundred yards of a river bed, or four hundred yards on the line of a quartz vein, by a width not exceeding one hundred yards on each side of the supposed centre of the reef, may be granted for a period limited to five years, at an annual rent of £5 per acre, £5 per hundred yards of river bed, or £5 per hundred yards of quartz vein, respectively.
- (2.) Leases for a longer period, not exceeding twenty-one years, and for a greater extent of land, may be granted at an annual rent, to be fixed by the Government.

80. The Governor in Council may appoint mining surveyors to carry these Regulations into effect.

Leases of five years' duration.

81. Persons desirous of obtaining leases of the first class may make application in form B, and accompanying schedule annexed thereto, to the Commissioner, who will submit the same to the Government, who will issue the lease, if the application be approved.

- (1.) Each application for an auriferous lease made under the Gold Fields Regulations must be accompanied by a sketch plan, executed by a surveyor, defining the position of the land applied for; and, within three months after lodging the application, the applicants shall furnish to the Gold Commissioner a plan and description showing the boundaries of the land as actually surveyed and marked by a mining surveyor or a licensed surveyor. Provided that the Gold Commissioner shall have power to recommend further extensions of three months each on gold fields within the limits of which mining surveyors have not been appointed by the Government. The Gold Commissioner shall record each application received as above, but shall not submit his recommendation for the issue of any lease to the Government until after the ground applied for has been surveyed and described by a duly appointed mining surveyor. Such application must set forth the machinery to be used, and describe the proposed method of working the claim, and extent and nature of preparatory work to be done, the number of men whom the applicant undertakes to employ within a stated period, and, if the application is made by a company, the constitution of the company, the number of shares, and the names of the directors or persons managing such company.
- (2.) The rent for each year must be paid in advance, and the application for the lease of the first class must be accompanied by the sum of £5 5s. as a deposit, to be forfeited should the lease, when approved, not be taken out.
- (3.) Pending the decision of the Government, the Commissioner may authorise the party applying for a lease temporarily to occupy at his own risk the ground sought to be leased: Provided that a notice, in the form A hereto appended, signed by the applicant, shall have been posted for six clear days on a conspicuous part of the claim, and also at the Commissioner's office, and that no objection has been taken to the granting of the lease; and further provided that during the said period the claim shall have been marked out at each corner with posts not less than three feet in height.
- (4.) The Commissioner may likewise sanction the cutting of any race or the performance of any other operation necessary for the profitable working of any claim under lease, although such race or other operation may not be on the ground actually leased, provided that such sanction be not prejudicial to the public interests.
- (5.) No such lease as aforesaid shall interfere with the right to any claim or claims held prior to the date of the application for such lease.
- (6.) Where, from floods or other unavoidable causes, the ground shall, in the opinion of the Commissioner, be unworkable, the lessee shall not be required to continue the employment of the stipulated amount of labor.

Leases exceeding five years' duration.

82. Applications for leases of the second class should be addressed in form B, and schedule annexed hereto, to the Commissioner, and be accompanied by a deposit of £50 to meet expenses which may be incurred in deciding upon the application, and also by the following information :—

- (1.) A description of the land required for lease, and a plan showing the extent of the auriferous portion [to be executed by a mining surveyor, as provided in clause 81 (1)], as well as of that required for setting up machinery, erecting dwellings, or offices, or for other purposes.
- (2.) The term or period for which the ground is required.
- (3.) The annual rent the applicant is prepared to pay.
- (4.) The proposed plan of working it, stating the kind and power of machinery to be used.
- (5.) The minimum number of men whom it is proposed to employ.
- (6.) The time after approval of the application which will be allowed to elapse before the work will be commenced.
- (7.) The time which will elapse and the work to be done before the number of men so stated will be employed.

- (8.) If the application be made by an association or company, the constitution of the association or company by which the ground will be worked, the proposed distribution of shares, and the amount of capital subscribed.
- (9.) The Commissioner shall forward to the Government every such application, with his report thereon. He will also cause the applicant to distinguish, by proper posts, the land for which he has applied, and to set up, as well thereon as at the Commissioner's office, a notice in the form A hereto appended, defining the nature of the application. If at the end of fourteen days after such notice has been duly posted no objection be preferred to the Commissioner in charge respecting the lease of such land, he will be empowered to grant leave for the immediate occupation of it, at the risk of the applicant, and subject to the decision of the Government as to the terms on which the lease, if the issue of the same be approved, will be granted.

83. Each application for a lease of auriferous tract lodged with the Gold Commissioner at Gympie, Ravenswood, Millchester, Charters Towers, and Georgetown, shall, in addition to the deposit hereinbefore required, be accompanied by the further deposit of the amount of the requisite survey fee, as per subjoined schedule:—

In all cases where leases have been granted, the number of men stated in the application must be constantly kept employed on the lands so leased, at the stated hours, under penalty of forfeiture of the lease, after due inquiry by the Commissioner, who shall specially report thereon to the Government, and any other infraction of the conditions of a lease will also involve the forfeiture thereof.

Colonial Secretary's Office,
Brisbane, 2nd February, 1874.

LEGISLATIVE ASSEMBLY.

HIS Excellency the Governor, in terms of "*The Legislative Assembly Act of 1867*," 31 Victoria, No. 21, directs it to be notified that a Petition, of which the subjoined is a copy, has been lodged with His Excellency against the election and return of Adam Walker, Esquire, to serve in the Legislative Assembly as a member for the electoral district of Balonne.

A. MACALISTER.

To the Most Honorable George Augustus Constantine, Marquis of Normanby, Governor and Commander-in-Chief of the Colony of Queensland and its dependencies, &c., &c., &c.

The humble petition of Jacob Low, of Welltown, in the colony of Queensland, sheep farmer and grazier,

Respectfully sheweth,—

1. That at the last general election of members of the Legislative Assembly of Queensland, your petitioner was a candidate to represent the electoral district of Balonne in such Assembly.

2. That in pursuance of a Writ for the election of a member to serve in the said Legislative Assembly, for the said electoral district, directed to the Returning Officer of the said district, a nomination of candidates took place on the fourth day of November, one thousand eight hundred and seventy-three.

3. That at the said nomination the candidates nominated were Adam Walker and your petitioner.

4. That a poll for such election took place on the first day of December, one thousand eight hundred and seventy-three, and on the eight day of December, one thousand eight hundred and seventy-three, Reginald Charles Heber Uhr, Police Magistrate of St. George, the Returning Officer for the said district, at the place of nomination, openly declared that for the two persons nominated, the number of votes following were polled respectively, namely,—

Adam Walker	52 votes
Jacob Low	52 votes

and he, at the same time and place, declared the said Adam Walker to have been duly elected a member of the said Legislative Assembly for the said Electoral District of Balonne, and returned the said writ endorsed with the name of the said Adam Walker as the person duly elected at such election.

5. That your petitioner complains of such election and return as being an undue election and return, and void on the grounds hereinafter set forth.

6. That at St. George, one of the places at which the poll was taken at the said election, one John Charles Manchee was permitted by the said Returning Officer to vote at the said election after four o'clock in the afternoon of the day of the said election, and after the poll thereat had finally closed, and the ballot papers had been removed from the ballot box. The ballot paper of the said John Charles Manchee was kept separate from the other ballot papers, and upon examination thereof it was found that the vote of the said John Charles Manchee had been given for the said Adam Walker, and the same was included by the said Returning Officer in the number of votes declared by him as aforesaid to have been polled for the said Adam Walker.

7. That at the place of nomination, on the said eighth day of December, one thousand eight hundred and seventy-three, before the Returning Officer openly declared the state of the poll at the said election, one Arthur Macalister, of St. George, being then registered as an elector of the said electoral district, protested to the said Returning Officer against the receipt of the said vote of the said John Charles Manchee, and against the same being recorded in favor of the said Adam Walker, on the ground that such vote was tendered after four o'clock in the afternoon of the day of the said election, but the said Returning Officer refused to accept the said protest.

8. That whilst the poll was being taken at the said election, one James Butler, being duly registered as an elector of the said electoral district, presented himself before the Returning Officer, at the polling booth of St. George, for the purpose of recording his vote at the said election. The said James Butler is unable to write, and signified the same to the said Returning Officer, who thereupon informed him that he should vote openly. The said James Butler then openly expressed his wish to vote for your petitioner; but the said Returning Officer, contrary to such express wish of the said James Butler, struck out the name of your petitioner from the ballot paper of the said James Butler, and deposited the said ballot paper, with the name of your petitioner so struck out, in the ballot-box, and thereby not only deprived your petitioner of the vote of the said James Butler, but improperly caused the vote of the said James Butler to be recorded in favor of the said Adam Walker.

9. That at the time of the appointment of the said Reginald Charles Heber Uhr to be Returning Officer of the said electoral district, and at the time of the said election, the said Reginald Charles Heber Uhr was not registered as an elector of the said electoral district, and was accordingly, as your petitioner humbly submits, incapable of giving a casting-vote at the said election.

10. That your petitioner, whose name is subscribed hereto, was, as before stated, a candidate at the said election, and has paid into the Union Bank of Australia, in Brisbane, the sum of one hundred pounds to the credit of the Speaker of the said Legislative Assembly in relation to this petition, and that the Bank deposit receipt for such sum is annexed hereto.

11. That, by reason of the facts set forth in the sixth, seventh, and eighth paragraphs of this petition, the said Adam Walker was not entitled to have recorded in his favor at the said election more than fifty votes, whilst your petitioner did, in fact, receive fifty-two votes at the said election, and, in addition thereto, was entitled to have had recorded in his favor the vote of the said James Butler, and your petitioner was, in fact, and ought to have been returned as elected instead of the said Adam Walker, and now claims to be declared the sitting member of the Legislative Assembly for the said district.

Your petitioner therefore humbly prays,—

1. That Your Excellency will cause this petition to be forthwith notified in the *Government Gazette*, and as soon as conveniently may be, laid before the said Legislative Assembly.
2. That this petition may be referred by the said Legislative Assembly to the Committee of Elections and Qualifications as soon as the said Committee shall have been duly appointed and confirmed.
3. That the said committee will determine and report that the said Adam Walker was not duly elected for the said Electoral District of Balonne, and that they will determine that your petitioner was duly elected for the said district.
4. That your petitioner may have such further and other relief in the premises as the nature of the case may require.

And your petitioner will ever pray, &c.

JACOB LOW.

Dated the thirtieth day of January, A.D. 1874.

Union Bank of Australia,

Brisbane, 30th January, 1874.

I have this day received the sum of One Hundred Pounds, to be placed to the credit of the Honorable the Speaker of the Legislative Assembly of Queensland, in relation to the petition of Jacob Low, of Welltown, against the return of Adam Walker, as Member for the Electoral District of Balonne.

A. THOMSON,

NEW GOLD FIELDS.

REWARDS TO DISCOVERERS.

THE Government are prepared to give Rewards to the discoverers of New Gold Fields, in accordance with the following Regulations:—

1. That person will be deemed the discoverer who shall first find gold, mark out a claim, and notify the same in writing to the Gold Commissioner of the district, if there be one—if not, to the Police Magistrate for the district, or of the nearest district. In such notification the discoverer shall state, as nearly as practicable, the exact locality, and the distance from the nearest gold workings, or nearest town.

2. No reward will exceed one thousand pounds. In fixing the amount to be paid for any discovery regard will be had to the number of men employed in the new gold field, its distance from the nearest gold workings, the character of the deposit in which the gold occurs, and the depth of sinking.

3. If two or more persons simultaneously discover gold in the same locality, or in places immediately adjacent, and they each severally comply with the conditions abovementioned, the sum proper to be awarded will be divided amongst the several persons who have discovered the gold fields in such manner the Government may deem just.

4. Rewards shall be given in accordance with the following scale, namely:—

a. For the discovery of a gold field, distant more than twenty miles from the nearest gold workings, and on which there shall be employed three months after the report of the discovery having been made not less than 200 men, a sum not exceeding £500.

b. For the discovery of a gold field, distant more than twenty miles from the nearest gold workings, and on which there shall be employed six months after the report of the discovery not less than 500 men, a sum not exceeding £1,000.

The words "nearest gold workings" shall mean gold workings on which miners are actually employed in searching for gold.

The above rewards are in addition to the prospecting, or reward claims, to which, by the Gold Fields Regulations of 31st October, 1873, discoverers of new fields are entitled.

CONVEYANCE OF MAILS BETWEEN JUNCTION CREEK AND PALMER RIVER, AND BETWEEN COOKSTOWN AND PALMER RIVER.

TENDERS are hereby invited and will be received until SATURDAY, the 28th February next, for the Conveyance of Mails as undermentioned.

All Tenders are required to be written on a form, printed copies of which may be had gratuitously on application at any Post Office in the colony, and may be forwarded (if by post, prepaid) addressed to the Postmaster-General, with the words "*Tender for the Conveyance of Mails.*"

Tenders, on separate forms, are required for each service, as well as for the periods mentioned, namely, one year or two years.

Every Tender must bear the *bond fide* signatures of the tenderer, and two responsible persons willing to become bound with him in such sum as the Postmaster-General may direct, not exceeding the gross amount of the contract.

Persons tendering, or their agents, must be prepared, if called on, to pay to the Postmaster-General a sum equal to 10 per cent. of the amount of such of their tenders as may be accepted, as a guarantee until their bonds and contracts shall be executed.

The general conditions referred to in the printed form of tender can be inspected at the General Post Office, or at any Post Office in the colony.

The Government will not necessarily accept the lowest or any Tender.

GEORGE THORN, JUNR.

Postmaster-General's Office,

ELECTRIC TELEGRAPH LINE.

ROMA, VIA SURAT, TO ST. GEORGE.

TENDERS will be received at the Office of the Superintendent of Electric Telegraphs, Brisbane, until noon, on MONDAY, the twenty-third day of February next, from persons desirous of contracting for the supply of all material, except wire and insulators, and for all workmanship necessary for the erection of the undermentioned line of Telegraph, according to the terms, general conditions, and specifications appended hereto.

From Roma, *via* Surat, to St. George, a distance of one hundred and ten (110) miles, more or less.

The wire and insulators to be supplied by the Government, and delivered to the contractor at Brisbane, about two months after the notification of the acceptance of the Tender.

Tenders must state separately:—

1. Price, per mile, for clearing and timber work.
2. Price, each, for extra poles, where necessary.
3. Price, per foot, for extra length poles, where necessary.
4. Price, per mile, for affixing insulators and stretching wire.

The whole contract to be completed and handed over to the Government, within eight (8) months from the notification of the acceptance of the tender.

GENERAL CONDITIONS.

Payment will be made monthly to the extent of seventy-five (75) per cent. on the value of the work reported to have been completed by the officer appointed to inspect the same; but, notwithstanding such report and payment on account, the Superintendent of Electric Telegraphs, or other officer appointed by him in that behalf, shall have

full power at any time afterwards, before final payment shall be made, of rejecting and condemning any of the work or materials in respect of which such report and payments may have been made. The total balance will be paid when the entire contract shall have been completed to the satisfaction of the Government.

The contractor may avail himself of the facilities afforded by "The Electric Telegraph Act" for obtaining materials, on signing a bond indemnifying the Government against any claims for compensation arising from the action of the contractor, and providing for any claims being paid by the Superintendent from moneys due to the contractor, if not otherwise settled.

The contractor will be responsible for all claims for compensation for damage to fences or other property, caused by the erection of the line; also, for damage so caused to roads; and if such claims are not defrayed, the Superintendent is authorised to pay the same from any moneys due to the contractor.

Should the contractor fail to proceed in the execution of, or to complete the work in the manner and at the rate of progress required by the Government, it shall be in the power of the Government, by a notice in the *Queensland Government Gazette*, to terminate the contract as far as relates to the work remaining to be done, and to enforce the penalties for the non-fulfilment of the contract; and all sums of money which may be due to the contractor, together with all materials and implements in his possession on the ground, and all sums of money, whether named in the bond to be entered into by the contractor or otherwise, as penalties for the non-fulfilment of the contract, shall be forfeited to the Government, and the amount shall be considered as ascertained damages for breach of contract.

Attached to each tender there must be a memorandum signed by the party tendering, and two responsible persons as sureties, agreeing to be answerable for the due performance of the contract within the time stipulated, in the event of the tender being accepted; and undertaking, in that event, that they will severally execute and deliver at the office of the Crown Solicitor, in Brisbane, within ten (10) days from the notification of the acceptance of the tender, a Bond to Her Majesty in a sum equal to twenty (20) per cent. on the amount of the tender.

The Government does not bind itself to accept the lowest or any tender.

SPECIFICATION.

The course of the line to be marked out by the contractor, under the direction of the inspecting officer.

All trees and underwood standing within forty (40) feet on each side of the line to be felled, and all timber within a radius of twenty (20) feet from each pole to be cleared away, and a good straight bridle track, of not less than eight (8) feet in width, to be left open within the clearing.

Any branches overhanging from trees beyond the distance mentioned, which, in the judgment of the inspecting officer, might endanger the line, to be removed.

All existing cleared roads which may become blocked by fallen timber must be cleared by the removal of the timber to the original width of such roadway. In cases where tracks may become blocked, all fallen timber must be removed, leaving a cleared space of not less than twenty (20) feet in width, following the course of such track.

Poles to be heavy straight saplings, of the best description of approved hardwood (no spotted gum or Moreton Bay ash being allowed), with the bark removed, not less than nine (9) inches in diameter at five (5) feet from the butt, and five (5) inches in diameter at the top, and twenty-five (25) feet in length; to be carefully and thoroughly charred from the base upwards over a space of six (6) feet, and well coated with the best coal tar; the top to be firmly bound at one (1) inch from its extremity with good hoop iron, of not less than one (1) inch wide. The top of each pole to be served with a thick coating of white lead.

The poles to be not more than eighty-eight (88) yards apart, unless by special permission; to be sunk five (5) feet in the ground, placed in a perpendicular position, and well rammed with rubble and earth. At angles, or other places where required, struts, or supports of wood, to be supplied, and fixed as directed.

Insulating pins (to be provided by contractor) to be of split ironbark, according to pattern supplied, and to be fitted as directed; the lip of the insulator to be not less than one inch from the top of the pole. The wire to be so stretched that the deflection between any two posts shall not exceed two (2) feet. Joints or splices to be made as directed, and the wire tied to the insulator with the binding wire supplied.

All material used in the construction of this work, or any part of it, to be of the best quality, and, together with the workmanship, are to be subject to the final approval or rejection of the Superintendent of Electric Telegraphs, or any officer appointed by him to inspect the same.

Tender forms, and every information, may be obtained on application at the office of the Superintendent of Electric Telegraphs, Brisbane.

A Deposit of the whole amount bid, being the first year's rent, will have to be paid at the time of Sale.

The purchaser of the remainder of any of the Leases enumerated below shall be allowed six months to stock the country; failing in which, or not thereafter maintaining the amount of stock thereon as prescribed by the Act, the Lease may become cancelled.

NEW GOLD FIELDS.

REWARDS TO DISCOVERERS.

THE Government are prepared to give Rewards to the discoverers of New Gold Fields, in accordance with the following Regulations:—

1. That person will be deemed the discoverer who shall first find gold, mark out a claim, and notify the same in writing to the Gold Commissioner of the district, if there be one—if not, to the Police Magistrate for the district, or of the nearest district. In such notification the discoverer shall state, as nearly as practicable, the exact locality, and the distance from the nearest gold workings, or nearest town.

2. No reward will exceed one thousand pounds. In fixing the amount to be paid for any discovery regard will be had to the number of men employed in the new gold field, its distance from the nearest gold workings, the character of the deposit in which the gold occurs, and the depth of sinking.

3. If two or more persons simultaneously discover gold in the same locality, or in places immediately adjacent, and they each severally comply with the conditions abovementioned, the sum proper to be awarded will be divided amongst the several persons who have discovered the gold fields in such manner the Government may deem just.

4. Rewards shall be given in accordance with the following scale, namely:—

a. For the discovery of a gold field, distant more than twenty miles from the nearest gold workings, and on which there shall be employed three months after the report of the discovery having been made not less than 200 men, a sum not exceeding £500.

b. For the discovery of a gold field, distant more than twenty miles from the nearest gold workings, and on which there shall be employed six months after the report of the discovery not less than 500 men, a sum not exceeding £1,000.

The words “nearest gold workings” shall mean gold workings on which miners are actually employed in searching for gold.

The above rewards are in addition to the prospecting, or reward claims, to which, by the Gold Fields Regulations of 31st October, 1873, discoverers of new fields are entitled.

GENERAL CONDITIONS.

Payment will be made monthly to the extent of seventy-five (75) per cent. on the value of the work reported to have been completed by the officer appointed to inspect the same; but, notwithstanding such report and payment on account, the Superintendent of Electric Telegraphs, or other officer appointed by him in that behalf, shall have full power at any time afterwards, before final payment shall be made, of rejecting and condemning any of the work or materials in respect of which such report and payments may have been made. The total balance will be paid when the entire contract shall have been completed to the satisfaction of the Government.

The contractor may avail himself of the facilities afforded by "The Electric Telegraph Act" for obtaining materials, on signing a bond indemnifying the Government against any claims for compensation arising from the action of the contractor, and providing for any claims being paid by the Superintendent from moneys due to the contractor, if not otherwise settled.

The contractor will be responsible for all claims for compensation for damage to fences or other property, caused by the erection of the line; also, for damage so caused to roads; and if such claims are not defrayed, the Superintendent is authorised to pay the same from any moneys due to the contractor.

Attached to each tender there must be a memorandum signed by the party tendering, and two responsible persons as sureties, agreeing to be answerable for the due performance of the contract within the time stipulated, in the event of the tender being accepted; and undertaking, in that event, that they will severally execute and deliver at the office of the Crown Solicitor, in Brisbane, within ten (10) days from the notification of the acceptance of the tender, a Bond to Her Majesty in a sum equal to twenty (20) per cent. on the amount of the tender.

The top of each pole to be served with a thick coating of white lead.

The poles to be not more than eighty-eight (88) yards apart, unless by special permission; to be sunk five (5) feet in the ground, placed in a perpendicular position, and well rammed with rubble and earth. At angles, or other places where required, struts, or supports of wood, to be supplied, and fixed as directed.

Insulating pins (to be provided by contractor) to be of split ironbark, according to pattern supplied, and to be fitted as directed; the lip of the insulator to be not less than one inch from the top of the pole. NEW GOLD FIELDS.

REWARDS TO DISCOVERERS.

THE Government are prepared to give Rewards to the discoverers of New Gold Fields, in accordance with the following Regulations:—

1. That person will be deemed the discoverer who shall first find gold, mark out a claim, and notify the same in writing to the Gold Commissioner of the district, if there be one—if not, to the Police Magistrate for the district, or of the nearest district. In such notification the discoverer shall state, as nearly as practicable, the exact locality, and the distance from the nearest gold workings, or nearest town.

2. No reward will exceed one thousand pounds. In fixing the amount to be paid for any discovery regard will be had to the number of men employed in the new gold field, its distance from the nearest gold workings, the character of the deposit in which the gold occurs, and the depth of sinking.

3. If two or more persons simultaneously discover gold in the same locality, or in places immediately adjacent, and they each severally comply with the conditions abovementioned, the sum proper to be awarded will be divided amongst the several persons who have discovered the gold fields in such manner the Government may deem just.

4. Rewards shall be given in accordance with the following scale, namely:—

a. For the discovery of a gold field, distant more than twenty miles from the nearest gold workings, and on which there shall be employed three months after the report of the discovery having been made not less than 200 men, a sum not exceeding £500.

b. For the discovery of a gold field, distant more than twenty miles from the nearest gold workings, and on which there shall be employed six months after the report of the discovery not less than 500 men, a sum not exceeding £1,000.

The words "nearest gold workings" shall mean gold workings on which miners are actually employed in searching for gold.

The above rewards are in addition to the prospecting, or reward claims, to which, by the Gold Fields Regulations of 31st October, 1873, discoverers of new fields are entitled.

ELECTRIC TELEGRAPH LINE.

ROMA, VIA SURAT, TO ST. GEORGE.

TENDERS will be received at the Office of the Superintendent of Electric Telegraphs, Brisbane, until noon, on MONDAY, the twenty-third day of February next, from persons desirous of contracting for the supply of all material, except wire and insulators, and for all workmanship necessary for the erection of the undermentioned line of Telegraph, according to the terms, general conditions, and specifications appended hereto.

From Roma, *via* Surat, to St. George, a distance of one hundred and ten (110) miles, more or less.

The wire and insulators to be supplied by the Government, and delivered to the contractor at Brisbane, about two months after the notification of the acceptance of the Tender.

Tenders must state separately:—

1. Price, per mile, for clearing and timber work.
2. Price, each, for extra poles, where necessary.
3. Price, per foot, for extra length poles, where necessary.
4. Price, per mile, for affixing insulators and stretching wire.

The whole contract to be completed and handed over to the Government, within eight (8) months from the notification of the acceptance of the tender.

GENERAL CONDITIONS.

Payment will be made monthly to the extent of seventy-five (75) per cent. on the value of the work reported to have been completed by the officer appointed to inspect the same; but, notwithstanding such report and payment on account, the Superintendent of Electric Telegraphs, or other officer appointed by him in that behalf, shall have full power at any time afterwards, before final payment shall be made, of rejecting and condemning any of the work or materials in respect of which such report and payments may have been made. The total balance will be paid when the entire contract shall have been completed to the satisfaction of the Government.

The contractor may avail himself of the facilities afforded by "The Electric Telegraph Act" for obtaining materials, on signing a bond indemnifying the Government against any claims for compensation arising from the action of the contractor, and providing for any claims being paid by the Superintendent from moneys due to the contractor, if not otherwise settled.

The contractor will be responsible for all claims for compensation for damage to fences or other property, caused by the erection of the line; also, for damage so caused to roads; and if such claims are not defrayed, the Superintendent is authorised to pay the same from any moneys due to the contractor.

Should the contractor fail to proceed in the execution of, or to complete the work in the manner and at the rate of progress required by the Government, it shall be in the power of the Government, by a notice in the *Queensland Government Gazette*, to terminate the contract as far as relates to the

work remaining to be done, and to enforce the penalties for the non-fulfilment of the contract; and all sums of money which may be due to the contractor, together with all materials and implements in his possession on the ground, and all sums of money, whether named in the bond to be entered into by the contractor or otherwise, as penalties for the non-fulfilment of the contract, shall be forfeited to the Government, and the amount shall be considered as ascertained damages for breach of contract.

Attached to each tender there must be a memorandum signed by the party tendering, and two responsible persons as sureties, agreeing to be answerable for the due performance of the contract within the time stipulated, in the event of the tender being accepted; and undertaking, in that event, that they will severally execute and deliver at the office of the Crown Solicitor, in Brisbane, within ten (10) days from the notification of the acceptance of the tender, a Bond to Her Majesty in a sum equal to twenty (20) per cent. on the amount of the tender.

The Government does not bind itself to accept the lowest or any tender.

SPECIFICATION.

The course of the line to be marked out by the contractor, under the direction of the inspecting officer.

All trees and underwood standing within forty (40) feet on each side of the line to be felled, and all timber within a radius of twenty (20) feet from each pole to be cleared away, and a good straight bridle track, of not less than eight (8) feet in width, to be left open within the clearing.

Any branches overhanging from trees beyond the distance mentioned, which, in the judgment of the inspecting officer, might endanger the line, to be removed.

All existing cleared roads which may become blocked by fallen timber must be cleared by the removal of the timber to the original width of such roadway. In cases where tracks may become blocked, all fallen timber must be removed, leaving a cleared space of not less than twenty (20) feet in width, following the course of such track.

Poles to be heavy straight saplings, of the best description of approved hardwood (no spotted gum or Moreton Bay ash being allowed), with the bark removed, not less than nine (9) inches in diameter at five (5) feet from the butt, and five (5) inches in diameter at the top, and twenty-five (25) feet in length; to be carefully and thoroughly charred from the base upwards over a space of six (6) feet, and well coated with the best coal tar; the top to be firmly bound at one (1) inch from its extremity with good hoop iron, of not less than one (1) inch wide. The top of each pole to be served with a thick coating of white lead.

The poles to be not more than eighty-eight (88) yards apart, unless by special permission; to be sunk five (5) feet in the ground, placed in a perpendicular position, and well rammed with rubble and earth. At angles, or other places where required, struts, or supports of wood, to be supplied, and fixed as directed.

Insulating pins (to be provided by contractor) to be of split ironbark, according to pattern supplied, and to be fitted as directed; the lip of the insulator to be not less than one inch from the top of the pole. The wire to be so stretched that the deflection between any two posts shall not exceed two (2) feet. Joints or splices to be made as directed, and the wire tied to the insulator with the binding wire supplied.

All material used in the construction of this work, or any part of it, to be of the best quality, and, together with the workmanship, are to be subject to the final approval or rejection of the Superintendent of Electric Telegraphs, or any officer appointed by him to inspect the same.

Tender forms, and every information, may be obtained on application at the office of the Superintendent of Electric Telegraphs, Brisbane.
